Another threat of in early Fenian move ment on Canada comes to us from New York. Though we doubt very much whether the Fenians intend to make another attempt against us, it is very satisfactory to know that the country was never better prepared to receive them. The Atlantic Cable brings addi tional intelligence of the continued activity of the Government in detensive preparations, and we judge, despite the machinations of American emissaries to foment it, that there will be no rising in Ireland.

It would only be innoculating them with some of the worst vices of their white brethren, before giving them time to acquire those habits of industry and self re iance so essential to the maintenance of a condition of freedom. A few men like Montcomery will do more for the improvement of the condition of the emancipated slaves than all the efforts of their pretended friends in

By the way, it is not a little singular that those very men who formerly supported the war against the South as a war against slavery, still persist, now that slavery is abolished, in excluding the citizens of the Southern States from their fair share of representation in the Federal Government. There must of necessity be an immense amount of disorganised industry to regulate and lead into profitable channels, and the encouragement of such enterprises as that established on the Davis estates, offers a feasible and ready means of harmonising the freedmen with the new condition of affairs. CITY TAXATION.

Sin .- My letter, which appeared in your valuable paper last Monday, has evidently excited the ire of " One who Knows," as we have been answer this morning in the Citizen; but in reading it over once or twice, I have failed to discover anything to show that my statements were one-sided, or that there was any attempt on my part to falsify the work of the assessors, which "One who Knows" would wish to imply. I can easily understand the feeling which pervades the mind of "One who Knows," because, from the manner in which he attempts to justify the present most iniquitous mode of taxation, I should not be at all surprised if I were told In fact no more unfortunate thing could be- that " One who Knows " was himself an assesfall the recently emancipated slaves than to sor. By so doing; and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves. SYMPTOMS OF WORMS. - The following are a few of the very numerous symptoms and diseases which are caused by Worms: deranged appetite, emaciated extremities, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, hardness of the belly, with frequent slimy stools, and sometimes convulsive fits; itching of the arms, pain in the head and stomach, unquie sleep, faintings, tremblings, coughs, indigestion low spirits, frightful dreams, and a gradual waist

They are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor Oil or other unpleasant cathartics-as in the use of other Worms. its incapacity of throwing off those grosser particles of perspirable matter deposited upon it. The consequence is the skin becomes contracted, scales and peels off; and the heat which is on its surface, weakens that nutriment which feeds the HAIR, it soon falls off, and BALDNESS is imminent. This preparation at once renders the skin soft and flexible, and thus prevents that perspirable matter from collecting on its surface. It not only renovates the hair, but imparts to it a beautiful gloss. It should be on every Lady's and Gentleman's Toilet, both as a DRESSING and RENOVATOR.
