The construction is simple and natural, all the extraneous lumber in . the body of the instrument is dispensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of string ing by substituting straight bridges, preserving at MONTREAL. the same time the Over Strung Bass, of which Mr Dauges is the Inventor. SEGESMUND THRLBERG, the great pianist, says :- I have examined your new Plane-BELGIAN Capt. Brown ... 2400 Tons NORTH-AMERICAN, Capt. Kerr 1784 Tons Fortes, and I cordially approve of its system of construction. Its principle, by which great in-

tone or power I have never heard excelled in depth,
purity, and sympathetic sweetness.

WM. HENRY FRY, late musical critic of The N. Y. Tribune says :- I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Mesers. Thalberg, Gottschalk Strackosch, Mason and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimititude, that crowning excellence which enables the planists to " sing" on the instrument. Your Planer ever deserve the highest rank. Your invention, in my opinion, is destined to work radical changes in the manufacture of Pianes throughout the T. DAVID, 1650 tons Capt Aird.

From The N. Y. Herald, Septr 5 .- Upon a careful ST. GEORGE, 1468 tons Capt. Smith examination of Drigg's Piano Forte, we find the ST. ANDREW, 1432 tons Capt. Scott. results obtained are a very fine singing tone, great purity and brilliancy throughout the entire instru-ment, not often found in Pianos constructed upon ST. PATRICK, 1207 tons Capt. Trocks The steamers of this Line will sail at regular intervals between the Clyde and Quebec. The N. Y. Times, July 12, says :- We have now the old plan.

an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exertion, the fullness of a Grand Piano-Forte and they must speedily supercede the old style.

GENTLEMEN:—Having thoroughly examined and ested the Piano-Fortes, invented and Mr. B. B. Driggs, I am of the opinion that the toru Mr. S. B. Driggs, I am of the opinion that the tone resulting from his improvements as exhibited in the instruments under examination, in point of richness, depth and brilliancy, equals that of the best Grand Piano-Fortes, and excels them in pure, musical intenation and actual tone, power thus approximating closer to what I consider perfection in the instruing closer to what I consider perfection in the instruing closer to what I consider perfection in the instrument than has yet been achieved by any other system of AMERICAN INVOICES-DISCOUNTS.
