QUEBEC, 25th January, 1866. The Honourable the Minister of Agriculture and

Immigration, having authorized the publication, by this Department, of an occasional paper, to be called the "CANADA IMMIGRATION GAZETTE," which will be devoted exclusively to the encourage ment of Immigration, and to the diffusion of acqu-rate and useful information concerning Canada abroad, I beg leave to bring under your notice the dvantages this sheet will offer as an advertising medium to land owners, and others having proper-ties for sale or lease. As information of this kind is eagerly sought for, and much valued by every intelligent emigrant, means will thus be afforded of placing the intending purchaser or lessee in Great Britain in direct communication with the property.

The Honourable the Minister of Agriculture and Immigration has also authorized the opening of an Information Office in Liverpool, under the management of Mr. Wm. Dixon, a gentleman well acquainted with this and the mother country, who will be specially charged with the distribution of this paper throughout the United Kingdom, and in bringing the same prominently under the notice of the emigrant. The first number will appear in the course of next month, the second in April, bringing down the information to the latest period, to be followed up monthly or quarterly, as may be required.

As the space it is intended to allot for advertising purposes will be limited, and in view of the large circulation the sheet will obtain, [for it will be distributed gratuitously], the prices of advertisements cannot be much lower than the following:— For each advertisement, not exceeding ten lines, \$2 the insertion : and 8 cents for every extra line.

In all cases, advertisements must be prepai and an early transmission is recommended. The undersigned will gladly receive communica-tions of a practical character for publication, bearing on the subject of Immigration, such as letters from actual settlers, showing their progress in the country, and pointing out the peculiar advantages of their district in particular, &c. PIANO-FORTES .

DRIGGS NEW PATENT RE THE ONLY INSTRUMENTS constructed on a truly Scientific Principle. They have greater strength, and will remain longer in Tune, than any other Piano. The construction is simple and natural, all the extraneous lumber in the body of the instrument is dispensed with; the sound boards are merely two arched planks of this wood, like the front and back of a violin; the strings are attached to a strong iron frame, which is separated and entirely independent of the case, is separated and entirely independent of the case, thereby dispensing with the old harp form of string ing by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr Durges is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its purity and richness of tone. They have received the highest testimonials from the press, and all the principal artists in the coun-

try, among which are: L. M. Gottechalk Harry Sanderson, S. Thalberg, Max Maretock, Timodore Etsfield, W'm. . Bason, A. Barill. M. Mrackosch. Chas, Fradel MR. SEGESMUND THRABERG, the great pianist, says :- I have examined your new Piane-Fortes, and I cordially approve of its system of construction. Its principle, by which great in-

taining the sound for singing, and its volume of tone or power I have never heard excelled in depth, purity, and sympathetic sweetness.

WM. HENRY FRY, late musical critic of The N. Y. Tribunesays :- I have examined your newly invented Pisno-Fortes. They merit all the praise given to them by Messrs. Thalberg, Gottschalk Strackesch, Mason and others. As regards strucfure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excellence which enables the pianists to "sing" on the instrument. Your Pianos ever deserve the highest rank. Your invention, in my opinion, is destined to work radical changes in the manufacture of Pianos throughout the

From The N. Y. Herald, Sept. 5 .- Upon a careful examination of Daigo's Piano Forte, we find the results obtained are a very fine singing tone, great parity and brilliancy throughout the entire instrument, not often found in Pianos constructed upon

The N. Y. Times, July 12, says :- We have now the old plan. an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exertion, the fullness of a Grand Piano-Forte and they must speedily supercede the old style.

GENTLEMEN:—Having thoroughly examined an i tested the Piano-Fortes, invented and patented by Mr. S. B. The Automatic Organ.

In presenting the AUTOMATIC ORGAN, we boldly DURING THE SPRING AND SUMMER announce the greatest triumph in musical instru ments of the age. During the past half century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for produce the mellow, rich and musicaltone which our instruments are celebrated. Another objection to this method of blowing was, that both feet being occupied, no opportunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers," have been manufactured in this country, and to counteract this difficulty (want of a swell) a lever has been prejected from the centre of the instrument, to act upon
