The Fenian humbur has now another in at its head: Stephens has resigned or been deposed, and General Gleeson elected to the office of C. O. I. R. That Republic needs terrible amount of organising, and we doub very much whether the new chief will I able to run the concern with even the limite success which attended Stephens.

Mr. Brown's "Englishman" having faile to enter an appearance, and Mr. Brown him self having also failed to redeem his pledge of the 17th and 24th tilt, on behalf of the "Englishman" aforesaid, Mr. McGEE ha very properly, after giving Ma. Brown an his "Englishman" a fortnight's grace, al dressed another letter to Mr. Brows, by way we presume, of closing the controversy. 'The systematic slanderer of the public men of the country has at length been "cornered" in way that weifrust will be a lesson to him f. all future time. We shall publish Mr. Mc GEE's letter te-morrow.

The city elections were conducted vest day with becoming spirit and without any undue excitement or turbulence at the poll-In By ward the contest terminated abruptly in the morning by the withdrawal of Mr. Wadworth, for the reasons stated elsewhere. Ottawa ward three of the old members wer also veturned, and in Wellington ward Mr Perkins had to give way to Mr. Bangs. St. George's ward the contest was kept with great spirit, and resulted in the trium; of the "ticket"-Messrs. Robinson, Lyon and Featherston by an overwhelming majority. The council will therefore stand five new doubtless look to it for an improved administration of civic affairs. The voters appear to have made a judicious selection, and the council we think will generally be regarded as an improvement upon its predecessor.

The impeachment of President Johnson, Radical extremists, is at length to be formally attempted by Congress. Mr. Ashley, o. Ohio, purposes introducing a resolution for the appointment of a committee to investi gate the conduct of Mr. Johnson, and to re port thereon, when, as a matter of course, h will be represented as being guilty of such acts as will, in the eyes of his enemes, war rant them in impeaching him. It is said the two-thirds of the House will unite in preferrin articles of impeachment so soon as the comittee shall report in favour of thems

The object of the Rancals is to get rid President Johnson, and place a tool of their own in his stead, and some of them boar that they will have him out of office by the middle of February. Wendell Phillips, wh is a leading light among the extremists, is warm advocate of impeachment, and one his reasons, therefore, is that if Mr. Johnson is allowed to remain in office to the end his term, it will be impossible to elect Radical at the next Presidential election When such reasons are urged as justifying the extreme step of deposing the chief magis trate, it may be well to consider whether the American people are not rapidly hastening of towards the total subversion of their institu tions, and the establishment of an unmitigate despotism. Mr. Johnson's only crime is that | Prof. Welster's Literary Institute,) under the he stands by the constitution, and refuses the rights and liberties of the Southern people and abolish the Southern States.

The decision of the Supreme Court, regarding the unconstitutionality of certain military trials, has alarmed the Radical party, and they feel now that unless they can at displace Mr. Johnson, the jurisdiction of the court will be invoked upon all the acts of Con gress imilitating against, Southern rights, and they know beforehand that it will sustain the constitution. It is necessary, therefore, dispose of the President, because it is on through him or his office they can remode the Supreme Court; they cannot legislate any of the judges out of office, nor can they legislate away the jurisdiction of the court, but if

Thus we see a party resolved upon violating the most sacred rights of the people, for the purpose of carrying out a xindictive and tyrat nical policy against the Southern States. The whole aim of the Radicals is to exalt the authority of the Legislature above that of the President, and practically above the decisions of the Supreme Court; for if that court is to be pucked by partizans for the jurpose of affuencing its judgments, it would no longer act as a check upon the Legielature, to keep it within the limits set to it by the constition The Raijeals are thereby surely ferobitionising the government of their country, and preparing for it troubles in the future, of which at the present time it is impossible to fivine the end. They will have two years of indisputed sway, unless the extreme measure f deposing the President should precipitate crisis, and if they succeed in this, it is very vident that means will readily be devised to convert the Supreme Court into a willing astrument in their hands.
