GOVERNMENT IMMIGRATION OFFICE,

The Honourable the Minister of Agriculture and Immigration, having authorized the publication, by this Department, of an occasional paper, to be called the "CANADA IMMIGRATION GAZETTE," which will be devoted exclusively to the encouragement of Immigration, and to the diffusion of accurate and useful information concerning Canada abroad, I beg leave to bring under your notice the advantages this sheet will offer as an advertising medium to land owners, and others having prope ties for sale or lease. As information of this kind is eagerly scright for, and much valued by every intelligent emigrant, means will thus be afforded of placing the intending purchaser or lessee in Great Britain in direct communication with the property.

The Honourable the Minister of Agriculture and Immigration has also authorized the opening of an Information Office in Liverpool, under the management of Mr. Wm. Dixon, a gentleman well acquainted with this and the mother country, who will be specially charged with the distribution of this paper throughout the United Kingdom, and in bringing the same prominently under the notice of the emigrant. The first number will appear in the course of next month, the second in April, bringing down the information to the latest period, to be followed up monthly or quarterly, as may be required.

As the space it is intended to allot for advertising purposes will be limited, and in view of the large circulation the sheet will obtain, [for it will be distributed gratultously], the prices of advertisements cannot be much lower than the following :--For each advertisement, not exceeding ten lines \$2 the insertion : and 8 cents for every extra line.

PIANO - FORTES!

DRIGGS' NEW PATENT A RE THE ONLY INSTRUMENTS. A constructed on a truly Scientific Principle. They have greater strength, and will remain longer in Tune, than any other Piano. The construction is simple and natural, all the extraneous lumber in the body of the instrument is dispensed with; the sound boards are merely two arched planks of this wood, like the front and back of a vielin; the strings are attached to a strong iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of string ing by substituting straight bridges, preserving a the same time the Over Strung Bass, of which Mr-DRIGGS is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its purity and richness of tone. They have received the highest testimonials from the press, and all the principal artists in the coun-

try, among which are:

L. . M. Gottschalk S. Thalberg. Wm. Mason, .f. Barili. M. Mrackosch. Chas, Fraciel planist, says :- I have examined your new Pranc-Fortes, and I cordially approve of its system of construction. Its principle, by which great in-

taining the sound for singing, and its volume of tone or power I have never heard excelled in depth, WM. - HEARY FRY, late musical critic of The N. Y. Tribunesays: - I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Messrs. Thalberg, Gettschalk Strackosch, Mason and others. As regards structure, they are original and philosophicat; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excellence which enables the pianists to " sing" on the instrument. Your Pianes over deserve the highest rank. Your invention, in my opinion, is destined to work radical changer

PATENT BASSO TENUTO OR SUB-BAS School Organs & Melodeons Finished in Elegant Rosewood, Walnut or oak cases

Every Instrument Warranted for Five Years-No Charge for Boxing 35,000 Now in Use.

A NILLUSTRATED CATALOGUE CONTAINof the most eminent musicians, as to the superior excellence of our instruments-will be sent free to The Automatic Organ.

In presenting the AUTOMATIC ORGAN, we boldly announce the greatest triumph in musical instru nents of the age. During the past haif century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for the feet to operate, but the want of the reversed or KXHAUSTED BELLOWS, (which is the only bellows used in our instruments,) made it impossible for t em to produce the mellow, rich and musicaltone which our instruments are celebrated.

Another objection to this method of blowing was, offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers," have been manufactured in this country, and to counteract this difficulty (want of a swell) a lever has been projected from the centre of the instrument, to act upon upon the swell, AND OPERATED BY THE KNEE. The inconvenience and contortion necessary to effect this object are disagreeable enough to a gentleman, but to a lady the use of such an appendage is nearby impossible.
Out AUTOMATIC device obviates this difficulty en-

force giving the desired increase or decrease in the

volume of the tene. The Melodeon and School Organ. For seventeen years the superior excellence of our Melodeons has not been questioned, and for two years past the enormous demand has made it im possible for us to meet our orders promptly. With our increased facilities, we feel warranted in assuring our patrons that their orders will be promptly mct, and solicit a continuance of their patronage. Caution to Purchasers.

All of our instruments have upon the name-board, in full, "GEO. A. PRINCE & CO." When a dealer represents any other instrument as "the same as ours," it is usually a mere attempt to sell an inferior instrument on which he can make a large profit.
P.S.—A liberal discount to Churches, Clergymen and Schools. Address GEO. A. PRINCE & CO.,
