

FINANCE DEPARTMENT, CUSTOMS.
OTAWA, 19th March, 1866.
Sir—I have in command to call your special attention to the annexed copy of a Despatch from the Secretary of State for Foreign Affairs, to the Governor-General of this Province, concerning Her Majesty's Orders that no Officers or Spanish armed Vessels be allowed to bring their prizes into British ports.

At a Council held in the City of Quebec, on Monday, the 24th day of September, 1866.
HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.
WHEREAS IT HAS BEEN REPRESENTED to the Governor-General in Council that much inconvenience has been, and is experienced by certain of the inhabitants of this Province residing in the vicinity of the Canadian Frontier, by reason of their being deprived of the privilege heretofore enjoyed by them of having their grain produce carried to Mills situated on the American side of the Frontier, and re-impounding the same in Canada free of Customs duty, in cases where the closer proximity of such Mills to the residences of such inhabitants, or their greater capacity made it expedient to resort to them—

At a Council held in the City of Quebec, on Monday, the 24th day of September, 1866.
HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.
ON THE RECOMMENDATION OF THE Honorable the Minister of Finance, and under and in virtue of the 7th section of the Act 23-30, Cap. 7, intitled: "An Act to amend the Act respecting the Duties of Finance, and to alter the duty thereon imposed on spirits," His Excellency in Council has been pleased to order, and it is hereby ordered, that the following regulations be and shall be observed, to wit:
1. Permits for the removal of spirits from any one place to another, shall be:
(a) The name and occupation of the person to whom possession of it is to be transferred.
(b) The place of destination.
(c) The quantity of spirits, as the case may be.

PIANO-FORTES!
DRIGGS' NEW PATENT.
ARE THE ONLY INSTRUMENTS—
constructed on a truly scientific principle—
and will retain tone, and will remain for years
in tune, than any other Piano. The construction
is simple and natural, all the extraneous lumber
of the instrument is dispensed with, and the
boards are merely two arched planks of thin
wood, supported by a strong iron bar, which
strings are attached to a strong iron bar, which
is separated and entirely independent of the case,
thereby displacing with it the ordinary system
of bolting the strings, preserving at the same
time the true string base, of which Mr. Driggs
is the inventor. By this improvement, we gain
much more vibratory power, at the same time
preserving all its purity and richness of tone.
The action is improved, and the tone is
more powerful, and all the principal parts in the
country, among which are:
English Males, per H. & S.
Beaumont, per Portland,
Thursday—postpaid 10 sh.
Saturday, per London,
Boston, every alternate Monday
