NOTICE TO MARINERS The following important notice to Navigators has been issued from the Colonial Office, Natal, DWELLING-HOUSE thereon erected, at present in reference to a Light House, erected on the Bluff, occupied by william Thomson, Esquire, and the at the South side of the entrance of the Port of garden and ornamented grounds adjoining the Natal, to which the attention of all concerned in specially directed.

By command, R. S. M. BOUCHETTE, Commissioner of Customs.

No. 122, 1866.

HIS EXCELLENCY the Administrator of the Government directs the publication, for general information, of the following Notice of the erection of a Light House on the Bluff, at the South side of the entrance of Port Natal.

By His Excellency's command, D. ERSKINE, Colonial Secretary. Colonial Office, .

NOTICE TO MARINERS.

Natal, 20th October, 1866,

A Light House has been erected on the Bluff, at the South side of the entrance of Port Natal, at and elevation of 292 feet above high water, a light from which will be exhibited on the 23rd January.

The Light House is in Latitude 29 = 52' 59" and Longitude 31 °. 3' 35" E. The building is an iron tower, in the form of a

frustrum of a cone, 81 feet high, painted white; centre of light being 70 feet above the base, exhib iting a revolving white light of the second class (dioptric), attaining its greatest brilliancy once every minute.

It is visible in all directions from North (round by East and South), to S. 59° W.; and can be seen from a ship's deck 24 miles in clear weather.

The above light is not visible from the Aliwal Shoal, which is 25 miles S, 53° W., from the Light House: vessels should not, therefore, when coming from the Southward and Westward, appreach the shore nearer than 4 miles, or shoal their water under 40 fathoms, using the lead freely until they make the light well out from the deck when they may stand in until it bears N. 59 E -which bearing will keep them outside all knows. danger-until they are abreast of the Umlaz River, (about 9] miles below the Light House), when they must keep it more to the Northward, as the land tends more to the Eastward, giving the shore a good berth of a mile, and when the light cears about E. N. E., they can haul in to the Northward for the anchorage : anchoring in 84 to 10 fathoms, with the Light House bearing S. W. to S. W. & S., distant 1 mile.

W. E. ARCHDEACON, Master R. N., Admiralty Surveyor.

The Queen's Most Excellent Majesty in Council. WHEREAS, by the "Foreign Deserters' Act, 1852, it is provided that whenever it is

made to appear to Her Majesty that due facilities are or will be given for recovering or appreh-nding seamen who desert from British merchant ships in the territories of any Foreign Power, Her not being slaves, who desert from merchant ships belonging to such Powers, when within Her Majesty's dominions, shall be liable to be apprehended and carried on coard their respective ships, and may limit the operation of such Order, and may nder the operation thereof subject to such condicions and qualifications, if any, as may be deemed expedient; and whereas it has been made to appear to Her Majesty, that due facilities are given for recovering and apprehending seamen who de-

ert from British merchant ships in the territories f their Maj sties the Kings of Siam.
