City and County Official Paper

OTTAWA, MAY 13, 1867.

For Property Notices-for Sale or to -see First Page.

It is stated by the Montreal papers of turday, that it is in contemplation to give the Hon. Mr. CARTIER a public reception on the occasion of his arrival, which as he derstood to be a passenger by the Hibernian, may be expected to-morrow. The Hon. Mr. CARTIER has well deserved this mark of pub- of the country, to an extent for which a ble," when a boat was to be locked down to lie confidence, and we doubt not but that the forced manufacturing industry would citizens of Montreal will accord him a flattering welcome.

We learn that Mr. McINTYRE, the sit ember for Renfrew, has positively for re-election. Mr. John L. Macdougall is of Commons, and Mr. D. M'LAGHLAN, of Arnprior, is also mentioned as likely to offer for the same position. The positive refusal of Mr. Bonfield to accept a nor the Legislature of Ontario, on the ground that his business engagements required his undivided attention, leaves the field as yet clear for aspirants to the Local Parliament.

On Saturday another meeting of the Executive Council was held, at which all Ministers now in Canada were present. Mai ters of much importance were acted upon It is understood that at this meeting the names of the Senators for Quebec and Ontario were adopted, and telegraphed at once to the per al Government, though we presume they will not be made known to the public until promulgated in the Queen's proclamation. We understand that the establishment of a weekly line of steamers from Quebec to the Lower Provinces was also sanctioned by the Council. The Council will sit again to-day

The Legi-lature of New Brunswick was opened on Saturday. The Governor's speech will be found under the telegraphic heading. Tue allusions to Confederation and the Intercolonial Railway, are in such terms as might have been afficipated, while with regard to the Militia and Volunteer force his Excel lency appeals to the patriotism of the New Brunswickers to correspond with the evinced by the Imperial Government, showing its determination to defend the tegrity of the Colonies. It is probable that the present session of the Legislature, will be stilised in making such changes in the Con titution of the Local Government of New sphere of action allotted to it under the new

States, whether with reference to the eight hour system, or the "strikes" that have been made for higher wages, warns us of the which at present exist between employers ney he receives, and agitates for the compulsory reduction of the day's labor from ten to right hours; or he believes that he gets too little money for his work, and so strikes for which in the end is likely to give to the em-

ployers the best of the quarre This misunderstanding between capital tions under a very highly protective system The foreign article, the product of the "poor ill paid labor of Europe" into the American market, if it comes at all heavy tariff. Yet we find the manufacturers men for more wages. The problem Americans to solve is, whether they have not overloaded the industry of the country by posing an amount of taxation it canno hey have forced that industry into unprofita ble channels, thereby depriving it of the power to bear the burthen of taxation, which under a more enlightened system of legisla

ion, it would be able to carry with ease. In England "strikes" have also been o frequent occurrence of late years and have not been without their serious consequence-There they occur under an entirely different tendency has been to establish an antagonism becomes aggregated and organised, threatens to become still more serious. The "Tailors' Strike," in London, illustrates the organiza tion of labor on a scale which a few years ago would have hardly been expected. No sponer had they turned out than the telegraph by L'Abbe Casgrain ; and from A. N. Bedard, was called into requisition to put their fellow- | Eaq., " Hunting Scenes in the Wilds of Africa." be seduced over to London by the Masters. tion.

A short time ago, capital also showed its dependence; by importing from Belgium certain articles formerly manufactured in Eng. The brigade turned out promptly, and proland; and now it is reported that the trades' continent that "strikes" may be maintained there up to a point which will prevent the continental manufacturers from underselling, in the British markets, such articles as England has heretofore made for herself. Several McDougall, hardware merchant, Sussex-st. such strikes are said to have been already sustained by funds from London

There is one important industry which as gractised in this country is never, exposed to central part of Canada in particular appears barrels of oil were destroyed, population have no organised quarrel with antimony, mica, lead, plumbago, etc. Messrs. capital because nature is their paymaster. If, J. T. & W. Pennock, Insurance and Exchange therefore, it is deemed of the first importance | Agents in this city, last fall forwarded to to avoid the risk of provoking complications scientific men in London, Edinburgh, a quan' between capital and labor, such as have al- tity of plumbago, from their claim in Buckingready been the cause of so much trouble, and ret threaten more, both in Protectionist London was pronounced to contain 93 per cent, America and Free Trade England, it ought clearly to be the policy of the new Dominion | 92 per cent. to encourage that direction of industry which is the least likely to lead to it. of wealth to the country, the adoption of the protective system in Canada, with the view to their encouragement, could not fail to retard the development of the agricultural resources, joyed his perch, nor had he even got a "nibno adequate compensation. If we look gate, in went the water, and the scalous fisherat the United States, threatened in the crops; with millions of acres of uncultivated lands ready to yield a rich return and with hundreds of thousands of laborers factory hands and mechanics, out of employ ment, or barely able to maintain existence we cannot fail to discover that the industr systematically misdirected through the operation of the protectionist doctrines that have cartridge, in order to be prepared for the few de so long obtained in their legislation; and it

NEWFOUNDLAND,

The session of the Legislature of Newfound land was brought to a close on the 28th ult interest. The recommendation in favor of Union is strongly expressed:

I am happy to be able to congretulate ro on the general successful issue of the see fishery, and I trust that the ensuing season sults from the chief occupation of the people I have much pleasure in transmitting to the Secretary of State the report of the Joint Committee appointed by you on the question relating to what is commonly known as the French Shore which was adepted by your with regard to our fisheries, which have proved so irritating for years past, and will be found Miscellaneous.—Detective O'Neill, balance of to be satisfactory to public feeling, as well as substantially beneficial to the best interests

The Act of the Imperial Parliament recently passed for the Union of Canada, Nova Scotia and New Brunswick, has accomplished in respect of those Provinces the proposed Confederation of all the British North American possessions. The measure contains provisions for the admission of this Colony, in common with others not included, upon terms with others hereafter to be settled. It becomes the duty of each member of your bodies to carefully investigate this subject in order that when at your next meeting it may be again brought under the consideration of the Legislature, you may be able deliberately to choose the course to take with regard to the most important question which the community has yet been called upon to decide, and which in any case must exercise the greatest influence in its future fortunes. This duty will be not less important than any others which devolve upon you in respect of the constituencies whom you represent, and whose true interests will no doubt obtain your

THE ECONOMY OF HEALTH .- This busy nation

careful consideration.

of Americans have 12,000,000 working people whose services may be estimated at \$2 a day, of ten days each in the year. This gives a total loss of \$240,000,000, a sum three times as large as the whole cost of the General Government lators, Foreign Minister and all. The amount weighs over six hundred tons in pure gold. A large proportion of this costly suffering might be averted by attention to diet, cleanliness and above all, by the proper use of the right remedy in season. When a 25 cent box of Ayer's Pills will avert an attack of illness which it would take several days to recover from, or a dollar bottle of Ayer's Sarsaparilla, will expel a lurking disorder that would bring the sufferer to his back for weeks or months does it take any figures to show the good economy of the investment? When Fever and Ague is rankling in your veins and shaking your life out of you, is it worth the dollar it costs for this Ague cure to have the villainous disorder expelled, which it does sufely and quickly? When you have taken a cold is it prudent to wait until it has settled on the lungs, when days or weeks or months must be spent in trying to cure it, even if it can be cured at all, or is it cheaper to take Aver's Cherry Pectoral, costing a few shillings, and remove the trouble before it is serious? It takes no wisdom to decide.
