REPLY TO ROBERT THOMPSON, &c., &c.

GENTLEMEN,-I have much pleasure in accepting the kind invitation given to me to become a candidate for the Representation of your County in the Local Legislature of Ontario. This offer of support from so large a number of

free and independent electors convinces me that you, as the County of Carleton, are bound to elect a man from among yourselves, and having been brought up and to the present time lived among the people of Carleton for the last forty years, I can justly lay claim to the term " Local." My in terest, business and sympathies are as they always have been with the electors of the County of which I am seeking the suffrages. Canada has now entered upon a new order of

existence; Confederation is an existing fact, and the labours attending the organization are at hand. Elect the right man as representative so that your wishes may be consulted in matters affecting your interest. As far as my politics are concerned I have always been and still am Conservative in principle, and will ever be found a firm sus porter of the constitution and laws by which British subjects enjoy liberty of conscience. Earnestly requesting my supporters not to relax in those exertions without which no cause or victory can be achieved. I assure them that no constitutional and reasonable effort shall be wanting on my part to bring the coptest to a triumphant lague. In the course of a few weeks I shall hold meetings in different part" of the County, where I hope to meet such of you as that the electors will not pledge their of the candidates for Legislative honors, as there is plenty of time for that yet, the election not being likely to take place before autumn.
