And for the speedy cure of the following complaints :

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases. Gaulano, Ind., 6th June, 1869. J. C. Aven & Co. Gents: I feel it my duty to acknowledge what your Saraparilla has done for me. Having substited a Scrotulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Uleurs on my hands and arms; sometimes it turned inward and distressed me at the stemach. Two turned inward and distressed me at the stemach. Two years ago it broke out on my head and covered my scalp and eers with one care, which was painful and leathsome be yould description. I tried many medicines and several physicians, but without mach relief from any thing. In act, the disorder grew wurse. At length I was rejoiced to read in the disorder Massenger that you had prepared an alterative (Sarasparilla), for I knew from your reputation that hay thing you made must be good. I sent to Christmanti and get it, and used it till it cured me. I took it, at you advise, in small done of a tempoconful over a is, all you advise, in small doses of a terroconful over a nearly and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now dear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am mying when I tell you, that I hold you to be one of the apostics of the age, and remain over gratefully. Yours, ALFRED B. TALLEY.

Dr. J. C. Aven: Sir, I cheerfully comply with the repest of your sgent, and report to you some of the effects
there realized with your flaresparille.

I have cured with it, in my practice, most of the comjoints for which it is recommended, and have found its
jects truly venderful in the ours of Veneral and Meryersel Indoors. One of my patients had Syphilitic ulcers
as his threat, which were consuming his palate and the
lop of his mouth. Your Sarasparille, steadily taken,
ored him is five weeks. Another was attacked by secodary symptoms in his nose, and the ulceration had
aten away a considerable part of it, so that I believe the
worder would soon reach his brain and kill him. But it
wided to my administration of your Sarasparilla; the eided to my administration of your Sarangarilla; the fores healed, and he is well again, not of course without one disfiguration to his face. A woman who had been justed for the same disorder by mercury was suffering on this poison in her losses. They had become so sentire to the weather that on a damp day she suffered expeciating pain in her joints and hones. She, too, was and entirely by wome Sarangarilla to a few marks. and entirely by your Survaparilla in a few weeks.
