They did not meet, however, and the reason seems to be that the several members of the deputation pledged each other that they would bring each a sufficient number of the City Fathers over to their views to confirm their action in reference to the amount guaranteed for barrack accommodation. In this, however, they have failed, not so much, perhaps, because the majority are opposed to the amount, August 29th, arrived here to-day and sailed but because they do not believe it to be legal to vote away so snuch money without submitting the question to the people.

GARDEN ROBBERGES .-- We have on several occasions cautioned people to look well to their gardens, with a view to protect them from marauders by night and by day. We have known of many gardens being robbed by night, by fellows who are too lazy to work. and even by some who have small gardens of their own. But besides grown up thieves, there are gangs of boys who go about by day, as well as by night, and wherever they find a garden that is not watched, they enter and carry off whatever they can conveniently remove. Two or three cases have come before the authorities, when, in consequence of the youth of the delinquents, they were discharg. ed on their promise of good conduct for the future. It is known, however, that some of the young rascals are still at their old tricks. much as what they destroy.

Then another stands, candy-jars, pop and beer wagons, sodafountains, ice-water fifteen cents a bucket, and pine-tag whiskey ten cents a nip. Here darkeys were buying red handkerchiefs, glass beads, and black twists of chewing tobacco: beaus flying around with saucers of frozen milk, tumblers of dirty lemonade, and bolts of tough cake; fellows were staggering about loaded to the eyes with ardent, and damning things into heaps as stupendous as the ruine of the Colisseum, and accompanying and mellowing all this mixture of sound and sights came from the inner ring the voice of prayer and psalm of thanksgiving.

#### A RADICAL REBELLION.

The Boston Post's Washington correspon

Some startling revelations are leaking out here touching the revolutionary schemes of the Radical leaders. It has been discovered that the plan for Radical Governments and negro supremacy in the Southern States was concocted and matured at the Convention of southern "Loyalists" on the 15th of September last, in Philadelphia, where were present the Radical Governors of the several Northres States. It was then and there determined to organize a revolutionary army which should hold the South under the control of the Radicals, regardless of what might be the popular vote. It was also determined that E. M. Pease should by some means be placed at the head of the State organization in Texas, and in obedience to this plot of the revolutionists Gen. Sheridan deposed Gov. Thockmorton and installed Pease in the Executive chair. In further continuation of the same plot, Gen. E. Davis was given a roving commission by Gen Sheridan, ostensibly for the purpose of su perintending the registration, but really to organize the Texas quota of the Grand Army of the Republic, the members of which are sworn to hold the power of the South regardless of Constitutional or legal barriers. That work is now in rapid progress, and funds are being supplied through the " Loyal Leagues' by the Radical Congressional Committee of this city, of which Mr. Schenck of Ohio is Chairman, My information is to the effect that this military organization is now being a thankful heart that we lived in a land of rapidly pushed forward in all the Southern pean will, at its next session, appoint a tates, and it is reported that the supreme command of this revolutionary force has been pestowed upon the late commander of the A STITCH IN TIME SAVES NINE .- The season Fifth Military District.
