City and County Official Paper,

OTTAWA, SEPTEMBER 13, 1867.

We'are informed that immediately after the formation of the Privy Council, the Hon. Peter Mitchell wound up a conversation with a triend in Ottawa on the subject of the measure of support which Ontario would give to the then newly formed Government, with the following words, as nearly as can be recollected: "I have strong faith in the steps should be immediately taken to supply "good sense of the people of Ontario, and "am persuaded that they will come up all "right at the polls." It is gratifying to find from the now pretty well ascertained result of the elections in Ontario, that Mr. MITCHELL'S confidence in the people was well founded.

THE Citizen has at length worked his ing the election for the House of Commons. messengers for delivery in due time. courage up to the extreme point of denying, positively and without equivocation, our sembly election. whole statement regarding the attempt at a Mr. Cowan, Deputy Returning Officer for second edition of the Russell election frauds, North Gloucester, had no commissions for by a process entirely different from that either Commons or Assembly. which was resorted to in the first. He cannot therefore plead ignorance as he did other day, and we are all the more surprised at his hardihood, seeing that many of the facts which he denies point-blank are notori-"ous, not only in the county of Russell, but in the city. Here is the Citizen's denial in Deputy Returning Officers were in the same his own words:

" In noticing the matter, two days ago, we hought it would be quite sufficient to give his statements a mild and general denial, and thus afford him the opportunity to bring forward the ' proofs' which he boasted to have in his possession. This, however, does not appear to have satisfied our contemporary denial of the correctness of his statements. Well, we now pronounce his statements to be utterly false. We challenge him to produce the 'proofs,' if he can, which he claims to have in reserve. If our contemporary has such our living witnesses, whose evidence the proofs,' he can have no difficulty in publishng them, and it is evidently his duty to lay the whole facts before the public, whose curiosity he has aroused. If our contemporary shirks the matter at issue by further ' long-winder quibbling,' we shall be forced to brand him as something-very unpleasant,"

We have not indulged in quibbling at al in this matter, and we shall not resort to now; but we did not desire needlessly to de scend to particulars as the general facts pre- that evening to have them duly executed and viously stated, and uncontradicted, were quite delivered. sufficient to justify our strictures. These facts we now proceed to substantiate, by the production of our "proofs"-the best of all evidence, since they consist of the testimony of living witnesses. We begot our readers to note that the Citizen pronounces all our terms. Now to the case and the "proofs"

The solution of the discrepancy betwixt the Expositor's statement of the expense of feeding the prisoners in 1863, and the Treasurer's statement, is this : The first three months of 1863 were paid to the late Mr. Bates and his Executors, and the last quarter of 1863 was not paid to John Graham till after the year was expired. The Expositor, perfectly reckless of the truth, tries to convey the idea that the amount actually paid to John Graham in 1863 was all that was paid by the County for feeding prisoners during 1863-in reality comparing six months of 1863 with twelve of 1866.
