THE REGATTA.

It gives us much pleasure to state that the only objectionable feature in the management of the regatta was removed last night at a meeting of the Managing Committee. It was then decided that all the races were to be round a buoy and back to the starting point. Every one will thus beable to have a capital view of the races from the start to the finish This change we believe is owing to the indeatigable exertions of the Secretary Mr. Haycock. A great number of Toronto, Montreal, Kingston, Brockville and Hamilton men, have arrived, so that the races may be expected to be intensely interesting.
