THE Hon. H. L. LANGEVIN arrived at the Toronto House last evening .- The Hon. Mr.

wherein it was stated that Dr. Tupper had well begun and so far successfully carried gone to Nova Scotia "armed with power to through, should be destroyed by unskilful negotiate " with Mr. Howe, and in its issue of hands. Before Mr. Brown becomes Premier yesterday morning, we were treated to the of Canada, every possible occasion of an following:

Now this statement as it stands is simply a glaring untruth. The real facts are, as we been raised, whether the General or the L cal Governments were charged with the day of appointing the magistracy; that this by legislation or a legal decision; but that as the L cal Government was in perfect injury could result to the public. The talk of "usurpation" is utterly farcical; but it is tracy should be legal'y appointed, and to and the Hon. J. S. MACDONALD, instead of) seeking to make a difficulty between their portunity of legislating upon the subject, and | cial Legislature. its legislation, being approved in accordance is no need of making any fresh magisterial appointments in the Province of Ontario.

denying to the Local Legislatures the power Canadian Senate, or of the Senate already existed, and its existence, not being title than into that of the members repugnant to the Act of Union, has not been the other branch of the disturbed by its becoming law. But the hence the title case is entirely different in the new Govern- in fuil, as even "Sen." or "Senr." that power, provided it does not already have given them as they should be, secundum exist, it is perfectly clear that it has not yet legem, and surely that ought to be satisfacdoneso. The case of Nova Scotia and that of tory. Ontario has therefore this difference : In theformer the Executive has already all the powers inherited from many years of legislation, which are not repugnant to the Union Act; in the latter, the Executive is but in its infancy, with such powers only as the Union Act has expressly given it, having of course derived in this classification." no power as yet from the only body capable Is this malicious, or only " poking fun?"

of conferring it, or defining its limits, within the Constitution, i. e. its own Legislature. These facts should be perfectly clear to any one who considers the subject.

It would be astounding that the Globe should make such a display of indignation over a matter so easy of satisfactory solution, were it not that there is an evident determin ation on the part of that journal to create new "Constitutional difficulties," to assist the Hon. Joseph Howe in impeding the consolidation of our new political system, and to estore, if that were possible, the ancient regime of factious and sectional agitation in which its mentor, the illustrious GEO. BROWN, shone forth as a very Triton among the minnows. But the era of practical legislation has shallow water indeed. Hence the splurging and "tail-lashing" over a sham cry " usurpation," which when fairly explained, so far from evidencing any disposition on the part of one Government to interfere in the affairs of the other, abundantly proves that CARTIER is expected in town to-day .- The the statesmen at the head of both are work .H .n.
