THE KING OF THE CRADLE.

Draw back the cradle curtains, Kate, Whilst watch and ward you're keeping Let's see the monarch lie in state, And view him whilst he's sleeping He smiles and clasps his tiny hand, As sunbeams in come streaming ; A world of baby fairy land

Monarch of pearly powder puff Asleep in nest so cozy, Shielded from breath of breezes rough By curtains warm and rosy : He slumbers soundly in his cell, As weak as one decrepid, Though King of Coral, Lord of Bell,

He visits while he's dreaming.

And Knight of Bath that's tepid ! Ab, lucky tyrant! happy lot! Fair watchers without number To sweetly sing beside his cot, And hush him off to slumber ; White hands in wait to smooth so neat His pillow when it's rumpled

On couch of rose leaves fresh and sweet, Not one of which is crumpled! Though rosy, dimpled, plump and round, Though fragile, soft and tender, Sometimes, alas, it may be found The thread of life is slender! A little shoe, a bitten glove-

Affection never waning-

The shattered idol of our love

Is all that is remaining ! Then does one chance, in fancy hear Small feet in childish patter, Tread soft as they a grave draw near, And voices hush their chatter; 'I's small and new, they pause in fear, Beneath the gray church tower

To consecrate it by a tear And deck it with a flower. Then take your babe, Kate, kiss him so, First to your bosom press him ! Of mother's love what does he know ? Though closely you caress him. Ah! what a man will be that boy, What mind and education ?

THE WONDERS OF THE MICROSCOPE -- We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the Paludal NO more eligible chance could be Miasm and determinating its character. Of offered to any party in the Hotelits effects we in this section have situadant evidence in the fever and ague which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of war from decayed and decaying vegetation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with ture, of cut stone; has large plate-glass windows, these found in the blood of ague subjects. They are 13,000 times less than visible to the naked eye, but have distinct character and form. He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other formentative poisons, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce themselves with great rapidity like yeast in moistened flour so that the slightest quantity impregnates the whole masse, Yeast through a powerful magnifier is seen to be a not be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further found and embodied in his " Ague Cure " what will destroy it .- Leader, St. Louis, Mo.
