AMERICAN

[WALTHAM]

WATCHES.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded, and as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is indeed little else than a vast machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement, no mistake in the sizes or shapes of the pieces of which it is composed nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the repudiation of parts by mechanical means, and this is carried out on the system of the most thorough subdivision of labor.

By means of multiplying gauges and microscopes, tests, and inspection for the detection of wear in cutting tools and for faults and flaws in steel or stone are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a perfect machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feebie action, the balance, even under the pressure of the highest mainspring, vibrates with a wide and free motion, and the beat has the clear and ringing sound, always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The company claim that by it they produce watches that cannot be equaled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes, to suit all tastes and means, but every watch that bears the genuine trade mark of "WALTHAM," is guaranteed to be a good one, and nobody need be afraid to buy it.

Every Watch Fully Warranted,

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge the virtues of your Sarsaparilla. None for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in blotches on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and humiliating beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, a small dose of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the agents of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by perseverring use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I speak cheerfully comply with the request of your agent in order: I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Harris, of Natchez, Miss., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks the symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and revert to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found it in all cases truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the roof of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms from mercury, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the sores healed up, and he is well again, but of course without the disfiguration to his face. A woman who had been quieted for the same disorder by mercury was suffering from it in her bones, and in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your sarsaparilla in a few weeks. I grow from its formula, which your agent gave me, that the Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the medicines I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks; and restored my general health so much that I am far better than before I was sick. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which troubled my health. I tried every thing, and every thing had to relieve me, and I have been a broken-down man. Some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your sarsaparilla, because he said he knew you. I did any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The act that can be said of you is not half good enough."

Chirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where one of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical profession of the people, and we are confident that this will be found to fill that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it seems here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effectual use, some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. To all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not go more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

PARLIAMENT

HAIRDRESSING SALOON!

E. MILES,

Hairdresser by Appointment to His Excellency the Governor-General,

HAS REMOVED HIS PARLIAMENT HAIR DRESSING SALOON from the old stand to his new and commodious room over the LOOKING MUSIC STORE, on Elgin-st., opposite the Russell House, which he has fitted up in the most *recherche* style of the business, and where his Rotary Hair Brush, which he imported expressly for himself, being the first introduced into British America, will be kept ready for use. The saloon is delightfully ventilated, and very pleasantly situated.

Mr. MILES would take this opportunity of returning his most sincere thanks to his many friends and the public, for their kind and generous patronage to him, during a number of years, to his old establishment, and trusts that by unremitting attention to business, and in his new and first-class saloon, with polite and attentive workmen, to merit a continuance of their favors.

All kinds of Hair Watch Guards, Finger Rings, &c., manufactured to order. For the convenience of ladies orders will be received at the London Music Store, where a fine and varied assortment of Hair-work will be found.

E. MILES,
Hair Dresser, by appointment, to his Excellency the Governor-General.

Royal Italian Bitters!

OR,—

TONICO REALE

DEL DOTTORE F. P. VERRI,

Professor of Chemistry in the University of PADUA

ITALY.

THIS celebrated preparation for which a certificate of merit was awarded to the distinguished original preparer at the National Exposition at Torino, Italy, by whose favor Mr. GIANELLI obtained the recipe, and was also awarded a diploma at the Provincial Exhibition of Canada held at Montreal in September, 1865, is, without exception, the most genuine, salubrious and agreeable Tonic ever introduced to public notice either in Europe or America.

For seventeen years it has, in Italy, been a universal favorite among the *elite* of society, being generally served in the drawing room before dinner, in preference to Vermouth.

The ingredients of its composition have been imparted to the leading Physicians of Canada and the United States, and have received their unqualified approval on every account.

The proprietor refers with the greatest confidence and satisfaction to the subjoined testimonials from eminent medical men, which he could add to, were it desirable.

Kept by the principal Druggists and Grocers in the Dominion of Canada and in the United States.

Sold by the Proprietor.

A. M. F. GIANELLI,
26, Hospital-street, Montreal.
Montreal, February, 1867.

MR. GIANELLI,—*Dear Sir*: Having received from you a sample of the Royal Italian Bitters of Dr. Verri as prepared by you, I have much pleasure in certifying to its very excellent qualities as an agreeable and exhiliarating tonic Bitter; nothing equal to it had ever come under my notice. Having also been made acquainted with its composition and mode of preparation, I feel nothing better could have been devised for general use; from its effects which I have observed in several cases, I think very many who now suffer from indigestion and dyspepsia in their various forms will find in it a panacea for all their ills.

Very truly,
W. E. BESSEY, M.D., C.M., &c.,
Beaver Hall Hill.

Letter from Drs. Picault.
Montreal, July 27, 1866.

To MR. ANGELIA GIANELLI.

Dear Sir: We are pleased to acknowledge the reception of the prescription of your valuable tonic and bitters, entitled "The Royal." All the substances contained in its composition are perfectly combined to form a preparation fit for the purposes detailed in your directions.

We are, dear Sir, yours sincerely,
DRS. PICAULT & SON.

New York, May 14, 1867.

A. M. F. GIANELLI, Esq., Montreal.

Dear Sir: Just recovering from a long and severe illness, I have received a sample of your Tonico Reale and from its use have derived considerable benefit, as I find my appetite and digestion much improved, and hesitate not to recommend it as one of the best and most agreeable Tonics I have ever used.

WILLIAM ARNOLD,
A.B., Trinity College, Dublin; M. R. C. S. London; M. D., New York, Licenciate Royal College Havana.

New York, June 1, 1867.

MR. GIANELLI,—*Dear Sir*: After a fair trial I take pleasure in recommending your Royal Bitters. It is a very excellent stimulating tonic, aiding digestion and giving tone to the digestive organs. In your Bitters you informed me of the ingredients. I think it is a most admirable combination; a pleasant, useful, and reliable tonic.

Yours truly,
R. P. COOKE, M.D.,
New York City.

New York, April 25, 1867.

A. M. F. GIANELLI,—*Sir*: Your kind favour of 16th instant, together with a sample of your "Tonico Reale" Royal Bitters,—I am pleased not only with its composition, but also with the effect, and regard the preparation as a very elegant one, suited to many cases when a more powerful compound would not be used. After having had further opportunity, I shall be able to give a more intelligent opinion in regard to its efficacy.

Have you any agency in this city? Many of my patients are anxious to use the Tonic but know not where to procure it. Yours truly,

C. PRINCE, M.D.,
157, East 10th-street.

22, West Eleventh-street,
New York, May 9, 1867.

A. M. F. GIANELLI, Esq.

Dear Sir: The sample of your Royal Italian Bitters, through your politeness, was received some time since. I am happy to say respecting them, after giving them a fair trial, that they are a delicious tonic, stomachic and stimulant Bitters, which I think will be found very useful to the debilitated suffering from indigestion, constipation, or dyspepsia.

With my best wishes for your success,
I am respectfully yours,
G. MILIANO, M.D.

Letter from Dr. J. L. Leprohon, City Health Officer.
Montreal, March 29, 1867.

Dear Sir: My absence from Montreal has prevented me from acknowledging sooner the reception of your note and accompanying sample of the "Royal Italian Bitters."

I have no hesitation in stating that the ingredients entering into their composition are of a nature to render them decidedly useful in many cases of weakness of the digestive organs and of the general constitution. Their flavour is also very pleasant.

I remain, dear Sir, yours very sincerely,
J. L. LEPROHON, M.D.

A. GIANELLI,
Proprietor Cosmopolitan Hotel, Montreal.

Letter from Professor Fenwick, Demonstrator of Anatomy, McGill College.
Montreal, July 31, 1867.

Dear Sir: You request my opinion of the "Royal Italian Bitters," prepared from the receipt of Dr. Verri, of Padua. I beg to state that I consider it a most agreeable cordial tonic, in every way superior in flavour and composition to the ordinary bitter tonics in general use. I have recommended it to several patients, who have derived marked benefit from its use.

I am, dear Sir, yours faithfully,
G. E. FENWICK, M.D.
A. M. F. GIANELLI, Esq., Montreal.

Letter from Professor Smallwood, of McGill University.
32 Beaver Hall Terrace,
Montreal, August 1, 1866.

I am opinion that Dr. Verri's "Tonic Reale" is a very pleasant and palatable form for the exhibition of tonic bitters, in cases requiring such a preparation.

CHAS. SMALLWOOD, M.D., L.L.D, D.C.L.
To A. M. F. GIANELLI, Esq., Montreal.

Letter from Dr. Hingston, Physician Hotel Dieu Hospital.
Montreal, August 1, 1867.

The "Tonico Reale" of Dr. Verri, prepared by Mr. Gianelli of this city, and introduced to the public as the "Royal Italian Bitters," is one of the most elegant preparations with which I am acquainted. Mr. Gianelli having made known to me its composition, I can, unhesitatingly, recommend it to those who require the combined use of an agreeable tonic and stimulant.

WM. H. HINGSTON, M.D., L.R.C.S., &c.,
Surgeon to St. Patrick's Department, Hotel Dieu.

From Dr. Muir, C. B. Inspector-General H. M. Hospitals in British America.
Montreal, August 1, 1866.

Sir: Having much practical experience of Bitters in the West Indies, in India, and other parts of the world where they are in request, I have no hesitation in giving it as my opinion that Dr. Verri's "Tonico Reale" is the *very best I have ever met with.*

W. M. MUIR, M.D., Inspector-General.

[TRANSLATION.]

Sir: Allow me to congratulate you on the perfection of your preparation called "Royal Italian Bitters." I have prescribed it to many of my patients who had need of tonics to invigorate their energies, without failure in any case.

This preparation besides being composed entirely of substances stimulating, bitter and tonic, possesses every quality which constitutes a wholesome beverage and one in a remarkable degree. By the stimulants and bitters which it contains, it acts directly upon the stomach and digestive organs, by arousing the energy of the digestive functions, and in rendering the act of digestion more easy and perfect.

By the tonic ingredients, and especially by the iron which enters into its composition, it acts on the whole organization; the tissues assume a consistency more decided, a development more complete, a functional energy more regular: the globules of the blood become richer, the vital energies greater; the muscular system more powerful, the nervous system calmer.

This beverage, which is stomachic and at the same time tonic, is serviceable not only to persons in health by promoting digestion, but may also be employed with advantage in a multitude of ailments which are the immediate consequences of excesses or errors in nutrition, such as dyspepsia, enteralgia, anæmia, chlorotis, leucorrhœa, convalescence, in short in all cases where the system is much debilitated for want of restoratives to refresh its energies and strengthen its organs.

This preparation, by its elegant appearance, its delicious flavour, and above all by its restorative properties, deserves to attract public attention, and should be considered as infinitely superior to all articles of the kind which have appeared to the present time.

Accept, Sir, the expression of my distinguished consideration.

A. SOUSLACROIX.

Docteur Medecin et Chirurgien Francais de la Faculte de Paris, Bachelier en lettres, Bachelier en Sciences Physiques, Rue Notre-Dame, No. 192 Montreal, 20 Decembre, 1866.

A Monsieur GIANELLI.

Letter from Dr. Girdwood, late Surgeon H.M. Grenadier Guards.
Laboratory, 630 Lagauchetiere-street,
Montreal, August 4, 1866.

Sir: I have examined the sample of Bitters you left me, called Royal Italian Bitters, or Tonico Reale. I find that they are composed, as you say, of the best materials, and that they are an excellent Bitter Tonic.

The small quantity of iron they contain is of advantage to any persons who may require that Tonic in their system.

It is pleasant to the taste, and, so far as I can ascertain, not injurious.

I trust you may meet with success, and remain, yours, &c.,

G P GIRDWOOD, M D, M R C S E.

To Mr A M F GIANELLI.

20, East 25th-street,
New York, May 9, 1867.

To A. M. F. GIANELLI, ESQ.,

Dear Sir,—The "Tonico Reale" I have tried faithfully, and it gives me great pleasure to state to you that it is the best and most agreeable Tonic I have ever used in my practice. I find it particularly adapted to females and children debilitated by the various diseases and complaints peculiar to them. If you will favor me with a letter stating where I can procure your Bitters for my patients, I shall take particular pains to recommend them. As a general rule the Bitters sold are too bitter and have too much *Alcohol*, and are hence often injurious.

Your "Tonico Reale" seems to me to be the Tonic we have long wished for, but never found until Prof. Verri, D.M., of Padua, has given it to the Medical World.

Respectfully yours,
WM. FRED. HOLCOMB, M.D.,
Professor of Aural and Ophthalmic Surgery in New York Medical College, and Surgeon to New York Ophthalmic Hospital and Dessuit Dispensary.

Letter from Dr. W. F. Campbell, Editor Medical Journal.
Montreal, August 20, 1867.

Dear Sir: I have to acknowledge the receipt of a sample of your "Tonic Reale," accompanied by a note informing me of its composition, and how prepared. While not believing in any universal Tonic, I am forced to admit that there are many cases where just such a preparation as yours would be invaluable. In cases of Chronic Dyspepsia, I have several times recommended its use and with much benefit. Yours, &c.,

FRS W CAMPBELL, MDLRCP, Londen.

A M F GIANELLI, Esq., Montreal.

Letter from Dr Scott, Professor of Anatomy, McGill College.
Montreal, October 26, 1866.

A M F GIANELLI, Esq.

Dear Sir: Having been furnished with a very *liberal* sample of your "Tonic Reale," Royal Bitters, I have delayed giving you my opinion of its merits until I had an opportunity of stating, from experience, some of the advantages which I have found derived from the employment of the Tonic.

I have noticed great benefit from the use of the "Royal Bitters" in indigestion, loss of appetite, general debility, and some nervous affections. The Tonic is most carefully prepared, and will be found a very agreeable Bitter and gentle stimulant; and from knowing its composition, I have pleasure in recommending it to the public; feeling satisfied that when more extensively known, the Tonic will be very generally used.

W E SCOTT, MD,
Professor Anatomy McGill University; Physician General Hospital, &c., &c.

31, Temple-street, Boston,
July 1, 1867.

A. M. F. GIANELLI, Esq.,

My Dear Sir: I beg to acknowledge the receipt of a sample of your Royal Italian Bitters together with a note imparting to me the formula for their preparation. Having a large field where to try the effect of your Bitters, I have obtained flattering success in cases requiring the use of a mild, stimulating tonic, and I will recommend your Bitters with pleasure in dyspepsia, indigestion, loss of appetite, general debility, and constitutional inactivity of the liver.

I remain, my dear Mr. Gianelli, yours, very truly,

E. DE LA GRANJA, M.D.

Letter from Dr. Hall, Professor of Midwifery and Diseases of Women and Children, McGill College.
Montreal, March 15, 1866.

My Dear Sir: I have to acknowledge from you the reception of a sample of your "Royal Bitters," of your own manufacture, and have subsequently had the opportunity afforded me of becoming acquainted not only with their preparation, but also with the materials which enter into their composition. Nothing, I think, can excel the mode of filtration adopted, while the small amount of vinous ingredient must recommend them to general favour, even to those who usually disapprove of the use of such beverages, the proportion being only just sufficient to maintain their composition unimpaired in climates subject to considerable fluctuations of temperature.

From the nature or character of the materials employed in their composition, it is impossible to regard them otherwise than as the healthful, invigorating, yet mild tonic or stomachic, especially adapted to stomachs enfeebled by general sickness, and whose energy requires a gentle stimulus, preparatory to the indigestion of food.

I shall have pleasure in recommending their use in such suitable cases as may present themselves to me. I remain, dear Sir, yours very truly,

A. HALL, M.D.,
Professor Midwifery, McGill University,
A. GIANELLI, Esq., &c. &c., &c., &c.
