The Ottawa Times

City and County Official Paper. FRIDAY, JANUARY 31, 1896.

We understand that the Hon. J. C. Cairns, Minister of Agriculture and Statistics, has been appointed to fill the vacancy in the Senate, created by the Hon. M. Brien's acceptance of a Judgeship.

The Privy Council had another lengthy meeting yesterday. It is understood that considerable progress has been made in the settlement of the several matters relating to the Intercolonial Railway, and that the further consideration of others has been postponed for a fortnight or three weeks.

It has been mischievously said that "a good deal may be made of a Scotchman, if he is caught young." But the theory is not peculiarly applicable to any nationality; if you want to make much out of any one, the younger you catch him, the better.

Good news has been received from the Ottawa Skating and Curling Club, which, according to the decision of the Privy Council on those points, will be submitted to the approval of Her Majesty's Principal Secretary of State, will be made public in this country until that approval has been obtained.

CABINET, namely: that while they are permitted to control the action of the Legislature, its course shall be strictly constitutional; that in attempting to carry out the desires of the people, "for political changes," no resort will be permitted to other means than those which may be lawfully employed by any of Her Majesty's subjects. It is certainly within the scope of the Cabinet, to permit, or even countenance, an appeal to the Upper Government, for a repeal of the Union Act; and doubtless such appeal will be made, but in the meantime, if the Local Government is sincere in its expression, and we have no doubt it is, then we shall expect to see a bill introduced in the Legislature which would confer upon the provinces of the Union Act, and direct every effort to draw it into opposition to the Dominion Government. There is room for hope, therefore, that their further experience of Confederation may give Ministers a better opinion of its effect upon their Province.

Since the above was written we have received a second despatch, making a brief reference to the debate on the Address. Our correspondent thinks, from the tone of it (irrespective of Mr. Wilkins), that the moderation of the Speech may be due to the influence of the Lieutenant-Governor, rather than to the presence of his advisers. But it is to be remembered that even an Attorney-General, of some inflammatory material, may induce in strong language, while making a speech for himself or for his constituents and advisers, while in making one to a certain body of action, he would be careful how he worded it. It is doubtless true that General Doyle is friendly to the Union, whereas his advisers are not; but we do not think that he will observe the strict constitutional rule towards his advisers, and we hope they will be no less scrupulous in respecting their own obligations. Nothing less than the course indicated by the Attorney-General was to have been expected—but after that—What then?

THE RECIPROcity TREATY.

The Chicago Post demands a new reciprocity treaty in the interests of the American people. It says: "The tariff, which has been the mainstay of the American people, is now being attacked by a new and dangerous enemy. The reciprocity treaty, which has been proposed by the Administration, is a dangerous and unwise measure, and it is the duty of the American people to oppose it."
