CAUTION.

Filis perfection and cheapness of the American (Waltham) Watch have given it auch a wide-world celebrity that unscrupulous dealers years ago imitated its style and pirated its trade marks. Irresponsible dealers are occasionally found who dishonestly trade upon the popularity of the American watch by selling a base imitation under the name of the genuine article. It is hardly necessary to state that such watches are worthless as time keepers, and when bought for the genuine are calculated to injure the high reputation which our watches have attained. The several grades of the American watch (except the lowest grade marked Home Watch Co.) are guaranteed by special certificate bearing the number of the watch and the signature of the Treasurer of the Company. With Train R. E. Robbins. The purchaser should in all cases require one of these certificates, which is furnished to all dealers in the genuine watches. The following are the trade marks on the several grades of our manufacture AMERICAN WATCH CO. APPLETON, TRACY & CO.
