RUMOR has it - and in this case there is probability of its being near the truth-that the Hon. J. R. BENSON is to be called to the Senate to fill the vacancy created by the death of Mr. BLAIR, and that Mr. GLAZIER, of Sunbury, a member of the Local Legislature, and Mr. Devez, a St. John merchant, are t fill the two vacancies in the New Brunswick Senatorial representation. Should these appointments be made and accepted, we believe the Senate will be full, Messrs. ARCHIBALD Nova Scotia, Ross of Ontario and Charats of Quebec having qualified the other day.

This thoroughly practical movement on the part of the business men of Montrea! ought to be encouraged by other cities. It is not a service to themselves merely, but to the whole country, that they are performing. It appears to us that concerted action among the mercantile classes throughout the cour try would speedily get over the difficulty the "silver nuisance," without any further special legislation on the subject, and were our own standard of value reduced to that of Nova Scotia, the "nuisance" would cure itself.

So far as we understand the subject, we heartily concur in the correctness of the fol proposition that the Government should buy up the silver with twelve months legal tender | such a fearful state of want and misery-the notes. Mr. WEIR says in his report :

"This, sir, would be introducing a much more serious nuisance, being nothing less than a proposal to suspend specie payments. Suppose, sir, the Government were to issue \$2. 000,000 of such notes, and compel the banks would sell their sterling at ten per cent for such notes, after paying 91 in gold for it in New York? No, sir; they might advance the price to 20 per cent and set you at defiance, at east until their supply of these long dated legal tenders was exhausted. There is, however, fatal objection to this proposal in the Royal Instructions, which require all Bills making a legal tender of any paper currency and not redeemable in specie on demand, to be reserved for Imperial consideration."

It strikes us that if a Dominion Board of Trade is to be organised, should embrace a representation from all the Provinces, and not from one only. But the proposition is not one that is likely to be acted upon-an effort some time ago to get up even an Inter-Provincial trade meeting having o'clock tailed. Boards of Trade can only act effectively in their own localities and fairly represent matters with which their members are familiar. The judgment upon any given question of a Dominion Board, composed as s suggested above, would be worth no more han the collective opinion of an equal number t business men, no more in fact than the pinion of any single Board, for it is we known that such bodies are exceedingly liable adapt their views to the sectional interests of their own locality. As representatives of pinion in their several cities, these Boards can doubtless render the Government and ountry some service, and by their representations upon the interests of trade or commerce; but we do not think that a body of delegates to be chosen by all the Boards is needed to revise and superintend the action t the Legislature and the Executive.

THE POWER OF IMAGINATION .- The Easton Pres Press says that a man named Roberts. living near New Germanstown, in Hunting driving a strange dog off his premises, was slightly bitten on the leg by the animal. He had heard that within nine days after being bitten by a rabid dog, hydrophobia would result, and he awaited with fear and trembling the coming of the fatal day. The time arrived, and a neighbour visiting him about noon found him kicking about, foaming at the mouth, and going through the other antics that madmen usually perform.
