From the comments of some of the small country journals "up west," it appears that rather curious notions prevail on the subject of the Lieutenant-Governorship. Before speaking particularly of the character or qualifications of the gentleman whose name has been so prominently put before the public, in connection with the office in Ontario, it may not be amiss to say a few words as to the office itself, the nature of which is evident ly misapprehended by certain writers who have given the world the benefit of their ideas on the subject.

HER MAJESTY, by the advice of her Privy Council, appoints, the Governor-General, and the made, as we may presume, for reasons of Imperial consideration. As the guardians of the interests of the Empire HER MAJESTY's advisers are bound to select the man who in their judgment will best fulfil all the requirements of the position, and it has never even been hinted that in ordinary circumstances political or party considerations should be utterly ignored in the filling of such offices. If the Governor selected for any Colony is ill-adapted to the position, or his bearing towards the Colonists calculate.I to injure the interests of the Empire, the mistake of his appointment attaches clearly to long as he is guided in his administrative acts | Radford's, at \$1 per set. by his constitutionally chosen Colonial Minthe judgment of the Queen's Privy Council may determine; but nobody claims that we that our Privy Council should be held responsible for them, and any one would be have seen Longfellow's poems sell for laughed at who would attempt in this country to write up or down the claims or pretensions of any particular public man in England for the office of Governor-General of of Cooper at 121 cents cach.

The Government of Canada has its responsibility for the advice it may give Hrs Excettency. Doubtless the members of the Privy Council will exercise their judgment in so filling which cannot be served by outraging the feelings of any particular Province. But assummer that the Privy Council will have a ine regard to these feelings, by which timately their tenure of office will be determine I, it is clear that the Provincial interest in the appointment practically ceases. As the GOVERNOR-GENERAL is an Imperial Of ficer, representing Hea Majesty, so the Lieutenant-Governors Canadian officers, representing the same authority, derived through the Governon-Gereral. Coroner Riel was sent for, who summoned a jury and held facts were elicited. THE THREATENED RAID.

[From the Montreal Gazette.] Authentic information has been received in this country to the effect that the United States military authorities have caused an inrestigation to be made in consequence of representations made to them, all along the Dominion frontier, with reference to the alleged Fenian preparations to make a raid on

The investigation has elicited this fact that, so far, there are no Fenian preparations for invasion worth talking about. The alleged movements of the so-called "General" Neil along the frontier have no military signifi ance. He has neither men nor mili-

It is needless to say to any intelligent man that both would be required for the purpose of an invasion, and that neither could be gathered to any extent worth notice, in secret, or without some time spent in preparation. The movements of Fenian muskets and the alleged contracts for biscuits have been made the most of, and certainly have not been shorn

There have been no general public subscriptions; no bonds sold; the contributions so cruelly swindled from poor but generous hearted servant girls, in the much abused name of Ireland, have been "played out;" and the only funds, so far as known, which the or ganization possesses, are the collections at
