OBITUARY.

MRS. ALEXANDER GIBBS .- The decease of her life, held so distinguished a place the realm of vocal art, seems to call for a passing notice. Margaretta Graddon was born in the West of England, in the year 1806. Her father was a partner in the celebrated music house of Clementi, Colbard & Co., -her mother a lady from the Island of Jersey. The late Duke of Sussex was a constant patron of Mr. Graddon, and his friend through life, and subsequently became sponsor for the infant Margaretts. I may mention here that on the of her first benefit at Drucy Lane hould be exactly £1,000 stg. Shewing a remarkable aptitude for music, the young lady, then not more than ten years of age, was placed successively under Sir George Smart, Crivalli, and Tom Cooke. Of the latter, it is said, that when she began to weep at being so " over-exercised," his command was "practice until you spit blood, then you may leave off." Miss Graddon was not more than fifteen when she appeared in Dublin, and afterwards in Liverpool; her fine voice, faultless form, added to her youth and beauty, created a grea sensation, and her father was in juced to ac cept an engagement for her at Drury Lane

In view of these facts, this council feels constrained to record in the strongest language possible its solemn condemnation of this unnatural and heinous crime; and calls upon ward from the wholesale department for the the whole community-but especially the clergy-to assist, by every means in their power, in suppressing these dreadfully demoralizing and truly murderous acts.

Dr. Richardson opposed the adoption of the words, " but especially the clergy," in the latter clause of the report. He thought it was confessing that medical mer could do nothing to put a stop to the evil without help from the clergy. The clergy themselves will take up as those who represent the Government say this matter when they feel it their duty, but that further time will have to be granted them

Dr. Macpherson had read a great deal respecting such matters, and had given them every consideration. He was of the opinion that the clergy ought to be aroused, and have pointed out to them the fact that there remained a duty for them to perform.

Mr. Berryman said it was difficult for a cle gyman to preach against a crime both secret West Point, offered their services. of the clergy to preach against all immorality sion would aid in the perpetration of this evil. Dr. Clarke asked if they were to be told that after all the money and influence that were false delicacy among them, so that they would told so, and make them responsible for the much delicacy to speak about these crimes against God and man? and will they enter taining those infamous advertisements before parents to the fact that such advertisements are calculated to increase these crimes by affecting the female mind, and boldly offering them a means of escape from the consequence of their immorality, and hiding their shame. For a doctor to speack in the family on this matter was uselss, as they would be told they were interested in the dollars and cents, as he had before alluded to.

Dr. Richardson would like to hear further from Dr. Workman on this matter. Dr. Workman thought they could not ge they knew nothing about the practice or extent of these secret vices of and crimes; they were far too innocent of what was going on around them. Who is Mrs. Winslow? As this question is frequently asked, we will simply say that she is a lady who, for upwards o thirty years, har untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort and practical know. ledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magicgiving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race ; children certainly do RISE Ur and bless her; especially is this the case grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing

Syrup. Try it, mothers-TRY IT NOW-Ladies' Be sure and call for
