

## The Ottawa Times

WEDNESDAY, JUNE 24, 1868.

For Markets see Fourth Page.

We publish to-day, on our first page, an other letter from our friend "Unionist," on the state of affairs in Nova Scotia.

It will be seen by an article elsewhere published, copied from the Leader, that inspection of the Kent Registry Office has which ought not longer to be tolerated. Mr. concluding portion of one of its articles on McKellar, junior, is not the model Registrar which the Globe attempted to make him signed by a number of Chatham lawyers. Perhaps the brethren of the Chatham bar do not view with the same concern as the public, the records of a county fast merging into inextricable confusion, but be this as it may, the facts stated by the Leader are more than ample to justify the charges, first made, if we This we will not ask. We do mistake not, by the Chatham Planet, against the management of the registry office by the present incumbent, who owes his appointment to paternal patriotism.

WE learn from reliable sources that salmon are entering the bays and streams of the St. Lawrence and Bay of Chaleur Districts this season in great abundance. The fish are also unusually large sized: numbers being caught of from 36 to 44lbs. weight each. These results are ascribed to the careful protection of breeding grounds, and the restriction of netting, under our excellent fishery laws.

Much has been said and written lately about the inadequacy of our salmon laws, and the wonderful superiority of British legislation. Everything done in Canada has been industriously depreciated, and everything done in Britain as blindly extolled. to compel them to show their hands and Well, there are noodles in all countries; and we can afford the palm to Mr. FRANCIS FRANCIS (of the London Field), however much our candor makes us regret the prececompeer, the presidential Colonel of the Queof Nova Scotia are not to be "cheated" bec Club. If we can judge by the following out of their Constitution by the QUEEN extract from a recent number of Land and and Parliament of the Empire, and calls upon Water, the Irish salmon fisheries stand much the Provincial Legislature, "when it meets in August," to assert the rights of the Proin need of improvement:

" this appears to be the case in all Irish rivers. faith in the integrity of the local members, " The fish; too, are not so large this season as " hitherto, . . . all parties com- and treating the refusal of the Imperial Par-" plain; net men, weir men, and anglers."

liament to grant repeal as a matter of indit-Dr. BUCKLAND, the able Inspector of ference. It concludes by saying : Salmon Fisheries, rather fights shy of the alleged cause of decline being "drift nets," themselves perfectly easy, in the confidence that sooner or later they will be extricated and he suggests the idea of overstocked from the ignominious bondage in which they waters. This seems to be at least plausible. | are at present doomed, by the ignorance and For turning to the reports of Mr. WHITCHES, impolicy of Her Majesty's Ministers, to remain for a short time. We advise patience of the Fisheries Department, we find it stated that in many streams along the Labrador crowded. The consequence, he points out, being a serious loss to the market supply.

The Chronicle is wise in alvocating the in town on the 8th inst., and was stopping at the Albion; went over to see the soldiers at being a serious loss to the market supply. being a serious loss to the market supply. Government, though its reason for alvising drill, and remained there about twenty-five they can have it at home, in their own Ward. appointed. The Holy Father delivered two Also, that such cause being added to the "patience and moleration" is somewhat minutes. On coming out saw Bowes looking limited spawning beds of our northern rivers, oracular.
