REMARKABLE PHENOMENON IN TENNESSEE.

The men were about four hundred yards from the place where the fiery missive from the sky struck, and were afraid to go and examine the place for several hours afterward. They took courage, however, and being joined by numbers of the people living in the surrounding neighborhood, they proceeded to the place, and found that it had struck upon a flat ledge of rocks in a waggon way feading from a farmhouse to the public road.
