WARDELL'S PATENT STOVE-No more difficulty in putting stovepipes together.

By this new invention STOVEPIPEs may be fitted into each other with the groatest ease, and there will be . NO NEED OF WIRING UP

as they cannot fall apart of their own accord. The invention (patented) is simple and effective, a short opening at the joint at each end of the pipe enables two of them to be locked together, and the " bead" effectually prevents their separation. Any person can put them together with the pedition of a practised tinsmith.

They will be sold at the low price of FIFTEEN CENTS PER LENGTH.

The undersigned having bought the exclusive right for the City or Ottawa and County of Carleton, from Mr.Y. K. REID, respectfully invites the public to call and examine them, being fully persuaded that all who see them will refuse to buy any other kind.

F. DENNIE. GENTLEMEN,—The Tea I purchased of you in March has given great satisfaction, and the flavor of it is very fine. It is very strange, but since I have been drinking your Tea I have been quite free from heart-burn, which would always pain me after breakfast. I attribute this to the purity of your Tea, and shall continue a customer.
