Her father was a widower and was anxious and preparations were made for it. They were to be married last Wednesday in York city.

A few days ago the expectant bride received a letter from her bethrothed stating that he ad entered into a speculation that would keep him in the city so that he could not possibly be with her at the time appointed and asking her or two. He also referred to the time when he had expected to be united to her sister. Provoked to think that he still remembered his former love, the young lady wrote him in a passion, and sitting down at the same time wrote to a cousin of hers, a farmer of Iowa, who had long loved her, telling him that she had broken her engagement, relating the circumstances to him, and ending by saying that she was ready to be married, and if he would come ding, she would marry him. He complied.

PROSPECTUS.

THE DOMINION TELEGRAPH COMPANY has been organized under the Act respecting Telegraph Companies, chapter 67 of the Consolidated Statutes of Canada. Its object is to cover the Dominion of Canada with a complete net-work of Telegraph lines.

THE CAPITAL STOCK

s \$500,000, divided into 10,000 shares of \$50 each, 5 per cent to be paid at the time of subscribing, the balance to be paid by instalments, not exceeding 10 per cent per month -said instalments to be called in as the works progress.

THE BUSINESS AFFAIRS OF THE COMPANY

are under the management of a Board of Directors annually elected by the shareholders in conformity with the Charter and By-laws orthe Company. The Directors are of opinion that it would be to the interest of the Stockholders generally to obtain subscriptions from all quarters of Canada, and with this view they propose to divide the Stock amongst the different towns and cities throughout the Dominion in allotments suited to the population and busi- opening at the joint at each end of the pipe enables ness occupations of the different localities and the interest which they may be supposed to take in such | two of them to be locked together, and the " head"

CONTRACTS OF CONNECTIONS.

A contract, granting permanent connection and extraordinary advantages, has already been executed, between this Company and the Atlantic and Pacific Company of New York; thus, at the very commencement, as the Lines of this Company are constructed from the Suspension Bridge, at Clifton (the point of connection) to any point in the Dominion, all the chief cities and places in the States, right for the City of Ottawa and County of Carletouched by the Lines of the Atlantic and Pacific Telegraph Company, are brought in immediate con-

panies arising out of a reduction of rates. The published recurns for 1867, show that 600.757 messages were sent in Canada, while the messages in the United States for the same period exceeded 20,600,000, the former being less than one message to every six persons, the latter, two to every three. From these returns and results it may be reasonably inferred that a reduction of rates to a tariff at which the wires of both Companies can be BOX STOVES, HOTEL STOVES, filled, will secure a fair field and good prospects to the Dominien Company without in any way projudicing the interests of the Company now monopolizing the ground.

The particulars submitted above are sumcient in the opinion of the Directors to establish the fact that low rates, by encouraging a more general use of the telegraph, are more profitable than high. It is not, however, solely in the light of a safe and good investment that the Directors desire that this enterprise should be viewed. They feel that their object will be but indifferently attained unless they and everything in the Tin, Sheet Iron and Coppercan satisfy the public, the business and commercial men, that all who use the telegraph as a medium of rapid communication, are interested in the establishment of what may be called a competing line.

To apply the argument to the purpose in hand, the following table showing the inconsistencies, and, in many instances, the excessive rates now charged on messages massing between the cities and towns of Ontario, Quebec and the United States, will, it is believed, con-ince the reader that an honest competition is needed, not only for the reduction and adjustment of rates, but also to ensure that attention and care which would of necessity be enforced on the Companies competing for public favor, and thus New Edinburgh, November 13, 1868. 897d47-2 tend greatly to promote the general interests of the community.

all the Discases of the Pulmonary Organs. This Balsan is introduced to the suffering public after its merits for the positive cure of such diseases have been fully tested. The formula from which it is prepared is referred to by the

leading medical journals as being equal to any prescription that can be made up for such diseases by the medical faculty. The Balsan is, consequently, recommended by physicians who have become acquainted with its great success. AS AN EXPECTORANT IT HAS NO EQUAL !- It is composed of the active principles of Roots and Plants, which are chemically extracted, so as to retain all their medicinal qualities.

MINISTERS AND PUBLIC SPEAKERS, who are so often afflicted with Throat Diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few
