Thomson, Nepean, and Lawis & Pinhey, Barristers, Ottawa. Je2-141-tf Cuted, between this Company and the Atlantic and Pacific Company of New York; thus, at the very commencement, as the Lines of this Company are constructed from the Suspension Bridge, at Clifton (the point of connection) to any point in the Dominion, all the chief cities and places in the States,

touched by the Lines of the Atlantic and Pacific Telegraph Company, are brought in immediate con- Hard's Farinaceous Food, NARM FOR SALE .- The south-east half nection therewith. of Lot No. 7, 4th Concession, Gloucester, R.F., containing about 110 acres, of which seventy acres A permanent connection has also been secured with the Great Western Telegraph Company of are cleared and in a high state of cultivation. The Chicago, whereby this Company will be brought into close connection with all the Luke Ports and other greater part of the remainder is hardwood bush places through the North Western States, and through to California. land. The property is on the Ottawa and Gloucester Macadamized Road, about five miles from

All classes of Society are interested in extending the use of the Telegraph, at LOW RAT'S, and the Directors are satisfied, that the adoption of a scale of charges considerably below the rates now exacted the City of Ottawa, and would make a most desiin Canada, will by encouraging a much more extended use of this medium of communication, not only Hair Brushes, rable residence. One half of the purchase money prove a real and substantial benefit to the public generally, but will also ensure a safe and profitable might remain for some years at interest, secured on the property. The title is good. For further particulars apply to LEWIS & PINHEY, Ottawa, On the 25th day of June, A.D., 1868, the DOMINION TELEGRAPH COMPANY was duly CHAR-Barristers, or to the undersigned proprietor on TERED according to law.

The admitted importance and value of Telegraphy, would, in the opinion of the Directors, have rendered any introduction of the Dominion Telegraph Company to the Canadian public unnecessary had it not been that previous attempts to establish Telegraph Companies in Canada, to share the business with the Montreal Company, had been allowed to fall through.

The success of a Telegraph Company will mainly depend on its ability to meet the demands of the public, and consequently it should possess, at least, equal facilities with any other Company, of access to all quarters with which its customers may desire to have communication. This important requisite has not been, until now, within the reach of any Company entering the field as a competitor with the Montreal Company, in consequence of the close and exclusive connection formed between that Company and the Western Union Company, of the United States, the latter by

virtue of certain patents, having until within these two years, monopolized nearly the whole of the telegraph business of the neighboring republic. The business relations between these two Companies continue in full force, but the patents having run out, the monopoly so long enjoyed by the Western Union has ceased to exist. The Atlantic and Pacific, the Great Western, and other American Companies have invaded the

field, and have become successful competitors for the public patronage and support. These Companies, acting on the cheap postage principle, have forced the old monopolist to a reduction of rates, which has resulted in a more widely extended use of this means of communication, and much to the surprise of the Western Union itself, has increased its profits, whilst sharing its field of operations.

The subscriber respectfully announces to the nhabitants of Ottawa and surrounding country that
at the request of many friends he has decided on
opening an extensive and well regulated Auction
Mart in this city:

From arrangements made with some of the
Furniture Manufactories of Western Ontario, a
large and well selected stock of new furniture will
be constantly on hand.

With these new Companies the Dominion Telegraph Company of Canada have entered into most
satisfactory business relations, and confident of the soundness of the principle which led to the adoption
of the penny-postage system in Great Britain, the voluntary reduction from \$100 to \$16.65 per ton
word message by the Ocean Cable Company, and the successful operations of the Companies recently
established in the United States, invite the business and mercantile community of Canada to join them
in the promotion of an enterprise, based on the principle of moderate rates and extended business
which, while injuring no one, they confidently expect will result in securing a large return to the in
vestor, and prove a vast benefit to the community. Allusion has been made to the voluntary reduction of rates by the Atlantic Cable Company. A

Public Sales will be held from time to time, of which due notice will be given, and at which par-ties requiring to furnish will have an opportunity as obtained directly from Cyrus W. Field, showing very conclusively the benefit both to the public and of purchasing at unusually low rates. The Mart

of purchasing at unusually low rates. The	Mart the Company of the reduction of rates.

They are successors to the late John C. I Kingston, and the makers of his excellent P From their long experience in Germany, and New York, they are universally admit	ox, of The following table shows the reduction which has been effected in rates in the neighboring States arising out of the construction of competing lines:—

n	. Former Male.	Present Rate.
Boston	60	\$ 30
Banger	1 20	65
Portland	00	50
Philadelphia	40 .	TOTAL CONTRACTOR
Baltimore		25
Washington	75	35
Augusta, Me	. 90	40
Cincinnati	1 20	60
Buffalo	1 90	1 00
		50
Cleveland	1 95	1 00
Pittsburgh	1 15	45
Louisville		1 00

This reduction took place in November, 1867. A comparison of the receipts of the Western Union since that period with the corresponding months of the previous year gives the following results :well as by prompt settlem nts immediately after, Gross Receipts for

rates, the new Companies had created a business more than sufficient to fill their wires. In proof of this the following extract is taken from the report of the Atlantic and Pacific Company, made July "In April last we reached the maximum capacity of our wires, and have since been compelled to refuse business daily. The Committee, therefore, have reached the conclusion from the actual experi-

ence of building and working the present lines-that "Telegraphic business is growing faster than Telegraphic facilities."

As further proof on this point, the low rates have so pressed the wires of both Companies with business through the day, that posters have been placed in all the main offices proclaiming that double the number of words would be telegraphed at night at the same price as half the number of words by

In support of the observation quoted above, that telegraphic business is growing faster than tele graphic facilities, the following statement exhibiting the wonderful increase in the use of the wire, within the last six years, cannot be without interest to our readers. The gross earnings of all telegraph lines in the United States for the following years were :-

A smart young man wanted to act as travelling 103,860 84 1866. 2,734,960 40 i 1867. House, Land and General Agent. 7,641,552 47 3,269,442 66 Showing an average increase of a million a year for the last five years. The subscribers beg to inform their customers

A esmparison of the number of messages, and persons using the wire in Canada and the States, furnishes a further proof of the advantage to the public and corresponding benefit to the Companies arising out of a reduction of rates. The published recurns for 1867, show that 600.757 messages were sent in Canada, while the messages in the United States for the same period exceeded 20,800,000, the former being less than one sages in the United States for the same period exceeded 20,000,000, the former being less than one message to every six persons, the latter, two to every three. From these returns and results it may be reasonably inferred that a reduction of rates to a tariff at which the wires of both Companies can be furble filled, will secure a fair field and good prospects to the Dominion Cempany without in any way projudicing the interests of the Company now monopolizing the ground.

The particulars submitted above are sufficient in the opinion of the Directors to establish the fact that low rates, by encouraging a more general use of the telegraph, are more profitable than high. It is not, however, solely in the light of a safe and good investment that the Directors desire that this encounter that the Directors desire that the Directors desire that the Directors desired that the Directors

terprise should be viewed. They feel that their object will be but indifferently attained unless they can satisfy the public, the business and commercial men, that all who use the telegraph as a medium of rapid communication, are interested in the establishment of what may be called a competing line. As in the administration of public affairs, a strong, watchful opposition, is the best security for good and careful government: so in commercial matters, an honest rivalry in the various pursuits and branches of trade farnishes the best security that the public shall be well served. To apply the argument to the purpose in hand, the following table showing the inconsistencies, and, in many instances, the excessive rates now charged on messages passing between the cities and towns of Ontario, Quebec and the United States, will, it is believed, convince the reader that an honest com-

petition is needed, not only for the reduction and adjustment of rates, but also to ensure that attention and care which would of necessity be enforced on the Companies competing for public favor, and thus tend greatly to promote the general interests of the community. Allen's Lung Balsam!

Consumption, Coughs, Bronchitis, Asthma, Croup, Diseases of the Throat, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and

all the Diseases of the Pulmonary Organs. This Balsam is introduced to the suffering public after its merits for the positive cure of such diseases have been fully tested. The formula from which-it is prepared is referred to by the leading medical journals as being equal to any prescription that can be made up for such diseases by the medical faculty. The Balsax is, consequently, recommended by physicians who have become acquainted with its great success.

As an Expectorant it has no Equal!—It is composed of the active principles of Roots and Plants, which are chemically extracted, so as to retain all their medicinal qualities.

MINISTERS AND PUBLIC SPEAKERS, who are so often afflicted with Throat Diseases, will find a sure remedy in this Balsan. Lozenges and wafers sometimes give relief, but this Balsan, taken a few as follows: times, will insure a permanent care. Will the Afflicted Clergyman Please Test ute Merits !- Testimonials of Physicians-Dr. Nathaniel

Harris, for many years a resident of Middlebury, Vermont, recommends the Balsan as being superior to all other remedies for Bronchitis. He says: " I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the Dr. Lloyd, of Ohio, surgeon in the army during the war, from exposure contracted consumption.

Throat, Bronchial Tubes, and the Lungs." "I have no hesitancy in stating that it was by the use of your Lung Balsan that I am now alive Grand Trunk, east and west. and enjoying health." Dr. Fletcher, of Missouri, says: "I recommend your Balsam in preference to any other medicine for Coughs, and it gives satisfac-

Dr. A. L. Scovill who has, for many years, been known to the public throughout the United States | wa at reduced rates can be had at the principal states as the inventor of remedies for the Lungs, recommends ALLEN'S LUNG BALSAM as surpassing any thing tions or the line. that has ever been offered to the public for the cure of Lung Diseases. He has used it in his own family | T. S. DETLOR, THOMAS REYNOLDS, with great success in the case of his sister, who was supposed to be in the last stages of Consumption.

This lady is now well, and has been permanently cured by Allen's Lung Balsan. Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know very many valuable lives have been saved by being persuaded to give it a trial. Don't despair be
Otta cause all other remedies have failed, but try this remedy and you will not be deceived. The proprietors of this valuable Balsam take pleasure in calling to it the attention of all medicine dealers, desiring that they procure a supply of it, and recommend it to their afflicted patrons and friends. It will stand the test for merits, as has the celebrated PERRY DAVIS' PAIN KILLER, which has been introduced to all parts of the inhabited world, and is everywhere appreciated and

Allen's Lung Balsam is the remedy to cure all Lung and Throat difficulties. It should be thoroughly tested before using any other balsam. It will cure when all others fail. Directions accompany each bottle. For sale by all druggists.
