Testimonials to the Montreal Tea Company.

FERGUSON.—Montreal Tea Company: Gentlemen, the Oolong tea which you sent me gives me great satisfaction. I forwarded part of the chest to a friend in Toronto who informs me he considers it as good as he has been paying one dollar per lb. for. Please send me a chest of Young Hyson at same price, viz: at 75c. per lb. Address as before. Your obedient servant, JNO. T. DAY.

Montreal Tea Company, 6 Hospital-st., Montreal: The Congou Tea you sent me in December last, gives great satisfaction, and is much superior to anything of the kind at that price, which we have been accustomed to get from other houses in your city.

Very truly yours,
W. E. JONES.

Richmond *Guardian* Office, Richmond.

WINFIELD.—Gentlemen, I received the Tea according to contract. I am very well satisfied with it, and can thoroughly recommend it. Yours truly, JOHN HERITAGE.

To the Montreal Tea Company, Montreal.

The Montreal Tea Company: It is pretty clear that when an individual or a firm makes a speciality of a particular trade—in other words—turn all resources and energies into one channel, then we find profits reduced and excellence secured. This has been the case in respect to the operations of the Company named. The qualities of Tea supplied are the best in the country, and by reference to the advertisement, it will be seen that, in price also, an inducement to patronage is offered the public.—*Woodstock Times.*

MONTREAL TEA COMPANY,

GENTLEMEN,—The tea I purchased of you in March has given great satisfaction, and the flavor of it is very fine. It is very strange, but since I have been drinking your tea I have been quite free from heartburn, which would always pain me after breakfast. I attribute this to the purity of your tea, and shall continue a customer. Yours respectfully, FRANCIS T. GREENE, 54 St. John Street, Montreal.

PETERSBOROUGH.—I have tried some of the tea supplied by the Montreal Tea Company, Montreal, and have found it to be of excellent quality, as well as much more economical than any procurable at the same price elsewhere. J. H. REID.

THE MONTREAL TEA COMPANY.—We beg to draw special notice to the advertisement of the above Company, in another column, and to the highly commendatory letters which accompany it, as to the great gain that is made by purchasing Teas from their establishment. With such evidences, it cannot be doubted but what these Teas will come into general use, not only on account of their cheapness, but also for their superior quality.—Brantford *Courier.*

QUEBEC—Gentlemen, the box of green tea you sent me a 65c. is far better than the tea we have been paying 90c. for. Yours truly,
P. A. BIOLEY.

—We have pleasure in directing attention to the advertisement of the Montreal Tea Company. We can assure our tea-drinking readers that an incredible saving can be effected and a much better article procured by adopting the suggestions thrown out by this company. From personal knowledge we can say that the Montreal Tea Company is a most satisfactory institution to deal with. Merchants and others by making purchases from this Company will save a very large per centage.—*Cornwall Freeholder.* [Most of our readers are acquainted with the editor of. the *Freeholder*, and know that what he states from personal knowledge can be entirely relied on. [Ed. Beacon.] Stratford *Beacon.*

Montreal.—To the Montreal Tea Company, 6 Hospital-st., Montreal: We notice with pleasure the large amount of tea that we have forwarded for you to different parts of the Dominion, and we are glad to find your business so rapidly increasing. We presume your teas are giving general satisfaction, as out of the large amount forwarded, we have only had occasion to return one box, which, we understand, was sent out through a mistake.
G. CHENY,
Manager, Canadian Express Company.

Our own experience of the use of their teas is, that they are of excellent flavour, and when bought by the chest or package, at a figure extremely low, leaving a large margin of profit for consumers, or for retailing by dealers. Any ordinary sized family would find it greatly to their advantage to order a chest of tea from the Montreal Tea Company.—*Owen Sound Comet.*

We advise our grocers, farmers, and others to read carefully the advertisement of the Montreal Tea Company. In presence of the general dullness of business in these countries, merchants who desire to push their business profitably would do well to give them their orders, as from their direct fresh importations, and small wholesale profits, merchants and others will find it to their advantage to give them a call, as their terms are of the most liberal character.—*True Ptriot, Thorold.*

A large consignment of the Montreal Tea Company's pure teas have been received by the undersigned. There is no paint, dye, or black lead used in these teas to make them look well. Boxes, 12 lbs. and upwards. See advertisement for list of prices.

PROSPECTUS.

THE DOMINION TELEGRAPH COMPANY has been organized under the Act respecting Telegraph Companies, chapter 67 of the Consolidated Statutes of Canada. Its object is to cover the Dominion of Canada with a complete net-work of Telegraph lines.

THE CAPITAL STOCK

Is $500,000, divided into 10,000 shares of $50 each, 5 per cent to be paid a the time of subscribing, the balance to be paid by instalments, not exceeding 10 per cent per month—said instalments to be called in as the works progress.

THE BUSINESS AFFAIRS OF THE COMPANY

are under the management of a Board of Directors annually elected by the shareholders in conformity with the Charter and By-laws of the Company.

The Directors are of opinion that it would be to the interest of the Stockholders generally to obtain subscriptions from all quarters of Canada, and with this view they propose to divide the Stock amongst the different towns and cities throughout the Dominion in allotments suited to the population and business occupations of the different localities and the interest which they may be supposed to take in such an enterprise.

CONTRACTS OF CONNECTIONS.

A contract, granting permanent connection and extraordinary advantages, has already been executed, between this Company and the Atlantic and Pacific Company of New York; thus, at the very commencement, as the Lines of this Company are constructed from the Suspension Bridge, at Clifton (the point of connection) to any point in the Dominion, all the chief cities and places in the States, touched by the Lines of the Atlantic and Pacific Telegraph Company, are brought in immediate connection therewith.

A permanent connection has also been secured with the Great Western Telegraph Company of Chicago, whereby this Company will be brought into close connection with all the Lake Ports and other places through the North Western States, and through to California.

All classes of Society are interested in extending the use of the Telegraph, at LOW RATES, and the Directors are satisfied that the adoption of a scale of charges considerably below the rates now exacted in Canada, will by encouraging a much more extended use of this medium of communication, not only prove a real and substantial benefit to the public generally, but will also ensure a safe and profitable return to the Investor.

On the 25th day of June, A.D., 1868, the DOMINION TELEGRAPH COMPANY was duly CHARTERED according to law.

The admitted importance and value of Telegraphy, would, in the opinion of the Directors, have rendered any introduction of the Dominion Telegraph Company to the Canadian public unnecessary had it not been that previous attempts to establish Telegraph Companies in Canada, to share the business with the Montreal Company, had been allowed to fall through.

The success of a Telegraph Company will mainly depend on its ability to meet the demands of the public, and consequently it should possess, at least, equal facilities with any other Company, of access to all quarters with which its customers may desire to have communication.

This important requisite has not been, until now, within the reach of any Company entering the field as a competitor with the Montreal Company, in consequence of the close and exclusive connection formed between that Company and the Western Union Company, of the United States, the latter by virtue of certain patents, having until within these two years, monopolised nearly the whole of the telegraph business of the neighboring republic.

The business relations between these two Companies continue in full force, but the patents having run out, the monopoly so long enjoyed by the Western Union has ceased to exist.

The Atlantic and Pacific, the Great Western, and other American Companies have invaded the field, and have become successful competitors for the public patronage and support. These Companies, acting on the cheap postage principle, have forced the old monopolist to a reduction of rates, which has resulted in a more widely extended use of this means of communication, and much to the surprise of the Western Union itself, has increased its profits, whilst sharing its field of operations.

With these new Companies the Dominion Telegraph Company of Canada have entered into most satisfactory business relations, and confident of the soundness of the principle which led to the adoption of the penny-postage system in Great Britain, the voluntary reduction from $100 to $16.65 per ten word message by the Ocean Cable Company, and the successful operations of the Companies recently established in the United States, invite the business and mercantile community of Canada to join them in the promotion of an enterprise, based on the principle of moderate rates and extended business which, while injuring no one, they confidently expect will result in securing a large return to the investor, and prove a vast benefit to the community.

Allusion has been made to the voluntary reduction of rates by the Atlantic Cable Company. A Chicago paper, writing on the subject of the growing use of the Telegraph, gives the following return as obtained directly from Cyrus W. Field, showing very conclusively the benefit both to the public and the Company of the reduction of rates.

AVERAGE DAILY RECEIPTS.

From $100 per message of ten words			$2,525
do	50	do do	2,895
do	25	do do	3,965

An advertisement has recently appeared announcing to the public that the rates from 1st September, prextmo, will be further reduced to $16.65 per ten words.

The following table shows the reduction which has been effected in rates in the neighboring States arising out of the construction of competing lines:—

From New York to	*Former Rate.*	*Present Rate.*
Boston	$ 60	$ 30
Bangor	1 20	85
Portland	90	50
Philadelphia	40	25
Baltimore	70	35
Washington	75	40
Augusta, Me.	1 20	60
Cincinnati	1 90	1 00
Buffalo	75	50
Cleveland	1 95	1 00
Pittsburgh	1 15	45
Louisville	1 95	1 00

This reduction took place in November, 1867. A comparison of the receipts of the Western Union since that period with the corresponding months of the previous year gives the following results:—

Gross Receipts for			
December, 1868	$ 551,971 40	December, 1867	$576,135 19; Increase $ 24,163 79
Jany., Feb., March, '67	1,591,644 96	Jany., Feb., March, '68	1,727,939 55; Increase 133,294 59
April, May, June, '67	1,559,778 79	April, May, June, '68	1,749,631 52; Increase 189,852 73

While these beneficial results were flowing to the Western Union Company from the reduction of rates, the new Companies had created a business more than sufficient to fill their wires. In proof of this the following extract is taken from the report of the Atlantic and Pacific Company, made July 28th, 1868:

"In April last we reached the maximum capacity of our wires, and have since been compelled to refuse business daily. The Committee, therefore, have reached the conclusion from the actual experience of building and working the present lines—that

"Telegraphic business is growing faster than Telegraphic facilities."

As further proof on this point, the low rates have so pressed the wires of both Companies with business through the day, that posters have been placed in all the main offices proclaiming that double the number of words would be telegraphed at night at the same price as half the number of words by day.

In support of the observation quoted above, that telegraphic business is growing faster than telegraphic facilities, the following statement exhibiting the wonderful increase in the use of the wire, within the last six years, cannot be without interest to our readers. The gross earnings of all telegraph lines in the United States for the following years were:—

1848	$ 4,228 77	1864	$3,792,245 40
1849	63,338 98	1865	4,420,268 88
1853	163,860 84	1866	5,624,501 20
1862	2,734,960 40	1867	7,741,552 47
1863	3,269,443 66		

Showing an average increase of a million a year for the last five years.

A comparison of the number of messages, and persons using the wire in Canada and the States, furnishes a further proof of the advantage to the public and corresponding benefit to the Companies arising out of a reduction of rates.

The published returns for 1867, show that 809,757 messages were sent in Canada, while the messages in the United States for the same period exceeded 20,800,000, the former being less than one message to every six persons, the latter, two to every three. From these returns and results it may be reasonably inferred that a reduction of rates to a tariff at which the wires of both Companies can be filled, will secure a fair field and good prospects to the Dominion Company without in any way prejudicing the interests of the Company now monopolising the ground.

The particulars submitted above are sufficient in the opinion of the Directors to establish the fact that low rates, by encouraging a more general use of the telegraph, are more profitable than high. It is not, however, solely in the light of a safe and good investment that the Directors desire that this enterprise should be viewed. They feel that their object will be but indifferently attained unless they can satisfy the public, the business and commercial men, that ALL who use the telegraph as a medium of rapid communication, are interested in the establishment of what may be called a competing line. As in the administration of public affairs, a strong, watchful opposition, is the best security for good and careful government: so in commercial matters, an honest rivalry in the various pursuits and branches of trade furnishes the best security that the public shall be well served.

To apply the argument to the purpose in hand, the following table showing the inconsistencies, and, in many instances, the excessive rates now charged on messages passing between the cities and towns of Ontario, Quebec and the United States, will, it is believed, convince the reader that an honest competition is needed, not only for the reduction and adjustment of rates, but also to ensure that attention and care which would of necessity be enforced on the Company's competing for public favor, and thus tend greatly to promote the general interests of the community.

DARLEY'S ARABIAN HEAVE REMEDY and CONDITION MEDICINE is positively superior to any, or all other preparations for the cure of Heaves, Coughs, Thick and Broken Wind, and all diseases which affect the wind of horses; also, as a Condition Medicine, surpassing everything of the kind, is easy to give, sure to cure and safe in all cases and at all times, and does not prevent the horse from being worked while using it.

It cleanses the breathing apparatus, by removing from the air-cells the coagulable lymph, or that secretion which in heaves clogs them, causing difficulty in breathing, and by its action on the diseased part, causing the mucous membrane to resume its natural dimensions, thus equalizing the circulation of the blood, and restoring the distended vessels to their natural size; by its use the horse's appetite is improved, all derangements of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance.

The following extract, which Mr. Mortimer is kindly permitted to publish, is from the letter of a relative of Dr. Wolfe, of this city, now residing in the United States:

"Find out the Express charges are too high, and if not, arrange with Mortimer to let you have a box of the bottles of CHOLERA MIXTURE, I could make a good little fortune with them. The bottle I brought with me here brought two ladies round from decided cholera; one on board the boat, and the other in Berlin, United States. Both attacked with diarrhœa, then with dysentery, and then vomiting. The one at Berlin was very bad. I gave her three doses of the Cholera Mixture, the third of which stopped the vomiting. The next day she was all right, or nearly so. She was very grateful. I have now only a little left."
