THE CONTRAST. (Addressed to Nova Scotia.) New Orleans (the Union Policy). Its kindness does not mean its weakness; "Hue" "O'Connell" is the Union battle cry.

Now different the Republic—dark and fierce— Would stab behind, or secretly would pierce, Their only bloody watchwords "Gaudy" "Killan".

A NEW FEATURE.—Since the recent heavy fall of snow, it has been found necessary to have the snow-shovels in the getting out of order, and other duties connected with the trade.

SQUARE THEM.—We understand that in consequence of the deep snow in the streets, and other places, the making of square timber has been entirely suspended.
