D. R. LEAVENS, NEW METALLIC "NON-EXPLOSIVE LAMP,"

now offers to the public this valuable improvement. The principle employed by Sir Humphry Davy, in his celebrated

"MINER'S SAFETY LAMP," is strictly adhered to, rendering it safe from

THE POSSIBILITY OF EXPLOSION; besides this most important feature it possesses every good quality that is desirable in a lamp. It will not break if dropped upon the floor. If returned no oil will escape. It will carry a large flame without smoking; this flame is steady, and so protected that currents of air do not affect it, rendering it a convenient lamp to carry about the house, and is not liable to get out of order. The lamp is made of metal, and cannot be broken, hence no danger from that cause.

THE CLAIM FOR THIS LAMP IS First—Absolute safety under all circumstances. Second—Greater light with less consumption of oil. Third—Beauty and perfection of finish. Call and see them at the
