Ottawa, May 27, 1869. CONCENTRATED LYE. CAUTION TO THE PUBL.

The remarkable success which has attended the introduction of the celebrated Concentrated Lye into Canadian market, by the subscriber, has excited the cupidity of an unprincipled firm in town (which has already been convicted of borrowing other people's brains) by a spurious imitation called Saponifier. To avoid disappointment, purchasers should be careful to ask for Harte's Conrencrated Lye, which is sold by all respectable Druggists and Grocers in town and country. 783y April 27, 1869.

The Celebrated McKelvey Patent.

H. MEADOWS & CO.,

35 Sussex-st., Have purchased the sole right to manufacture the above patent Refrigerator. It possesses advantages never before obtained in any article of the kind It is so constructed that the cold air performs the double function of effectually cooling and ventilating the provision chamber, and protecting it from the warm air without. In this way it is uniformly cool and constantly changing the air, so that every part of it can be used, and articles of a strong or even offensive odor can be so arranged that they can in no way affect those which are more delicate, as fruits, jellies, milk, &c. The great advantage that the McKelvey patent has above all other Refrigerators is its admirable system of ventilation, nothing ever becomes musty, no complication of dampers to open and shut, all supplied with Piano-forte Castors. GRAND TRUNK.

[From Herapath's Journal, June 5th.] A circular appears in another column signed by several proprietors, who have resolved "themselves into a committee, the object of which shall be to inaugurate an alteration in the management both in England and in Canada." And to support the movement there is to be a meeting at the London Tavern next week.

We confess we think the movement ill-timed and uncalled for, and, above all, that the policy involved in the following paragraph of the circular is exceedingly questionable, under the circumstances-"A new manager must be tried, but he must not have the powers of a Managing Director. The question is sometimes asked, Who is to take Mr. Brydges' place?"

This means we presume, the removal

of Mr. Brydges, the policy and even justice of which at this time we doubt, for it is only a few months ago that Mr. Brydges came to this country, answered the questions put to him at a meeting of the Shareholders, answers which were received as satisfactory. Hardly has he returned to Canada than this new agitation is got up. As to the policy of the step, be it remembered Mr. Brydges is connected with the Intercolonial railway, which will presently have to be worked who mean to retain an abiding interest in the Grand Trunk will not take measures Canada that we have sold and furnished Mr. F. to displace Mr. Brydges, if at all, at this W. > tal, or, which is the same thing, credi And we believe the Grand Trunk to be substantially a much better concern than it looks. Last year, notwithstanding things adverse, it could have paid about 4 per cent, on the 1st Preference, and would no doubt have done so but for exceptional charges. This year we fully expect the 1st Preference, at least, will be paid in full, and the moment the Company begins to move up, its advancement may be rapid, for there is a considerable amount of security on hand available for floating, and by which the Company may be found in that which it so much needs-a moderate amount of capital. The Company has already a solid

purposes, the dividend results would be far better than people imagine. The Grand Trunk capital, and the London, Chatham, and Dover capital (of course of all its sections) are about the same in amount, but the gross revenue of the Grand Trunk is more than double the London, Chatham, and Dover revenue. The capitals of the Grand Trunk and Brighton Companies are as like in amount as two pins; the Grand Trunk, however, has the advantage in gross revenue, and we repeat, so soon as the Grand Trunk are in a position to raise the required amount of capital, for which they have ample securities, the concern will show

Remembering that the capitals of the London, Chatham, and Dover, the Brighton, and the Grand Trunk of Canada Companies (including the capitals represented by all rent charges, guarantees, &c., &c.) are very nearly the same, nay that commercially considered, the Grand Trunk capital is less by a million or two than that of either of the two other Companies, would any one suppose that the following are facts ?-yet if he doubt them he may find them duly re-

Indeed it increases verg much as Canada progresses in population and trade, and we all know that that progress ledged to be the most perfect assistance to sight has been rapid, and bids fair to be still over manufactured, and can always be relied upon more rapid in future. Last year, without the addition of a single mile of railway, the Grand Trunk increased its gross revenue by nearly 90,000t.

Grand Trunk's Gross Miles of Revenue. £1,402,960.....1,377 In his printed letter dated April 3rd, 1867, Mr. Brydges showed clearly that fairly comparing like with like, the gross

progress of the business of the line since its establishment has been great, and is likely to be much greater in future. Owing to the force of adverse circumstances the Company has been compelled to suspend the cash dividends of its preference stocks, and no doubt the Company is financially somewhat stronger for it, preference helders has been great. For instance, as to the 1st Preference what is the gain to the Company by paying that dividend in 1st Preference bonds instead of cash, as it must be in the absence of cash? The Company only gains
