Your requisition inviting me to be a candidate for the representation of South Renfrew, I have received with gratitude Thine own friend and thy father's triend forsake not," is clearly written on my heart and to many hearts in Renfrew, this is a mutual and pleasing obligation. My first successful measure in the Parliament of United Canada was the "Culler's Bill," but ever, one of those measures that wiped out Ottawa trade and its lumbermen, In our present chaotic condition there need scarcely superstition and tyranny that threatened us, Having the fac-simile of "Cartis & Perkins" on ringing through my brain. the Act 31 Vic. We have the principles of freedom secured under our new and fever-begotten constitutation, manufacture, sale or storage of Ben- tion, and if we act wisely, cautiously and prudently we may prevent lawyers and military aspirants from making Canada the mere nursery for their crafts and conceits. Economy in every department, sweeping. from time to time, make such regulations and real retrenchments,-a firm declaration respecting the storage of Petroleum, crude or of, and reliance on our fights as men, and a lic safety, making special regulations as to free trade with the United States and England Benzine and other similar products of Petro- may preserve us British. With that system under which my father fought, - I have grown fat, and hope to die in peace; we may not only Friday and Saturday, June 25 and 26 plant a nation, but may set to the world the fair example of a country living in universal peace and unity under a treaty of equal rights-free trade-and obligatory engage ments to submit questions of national difficulty and misunderstanding to arbitration ;-a tribuna! as applicable to the settle. ment of a boundary line,-violation of treaties, or acts of piracy, as to questions of

limits, boom breaking or saw logs. In conclusion, twenty-eight years Parliament must have given me some kind of character. On that I stand unpledged. If you elect me, my best energies and the devotion of my heart will be given-to preserve Ottawa, (what I claim to have assisted in making her) the Scat of Government,-the early improvement of the Ottawa to Lake Huron, and an extension of your railroad to the Pacific, with the removal of every burthen rom our trade.
