HE E w .- a meetrag of the Privy Council veste av afternoon & which Sir John A. MACDENALD, and the Hon. Mesers, Rose, Hows, and Chapai- were present.

On Tuesday evening the Hon. Mr. Howe returned from a trip to the Upper Ottawa as far as Des Joachims. On the same day the Hon. Mr. Ross re-

turned to the capital from Montreal. THE Board of Arbitration were engaged

yesterday, and will be to-day, in hearing

Messrs. WARD & O'LEARY's claim will be away from our true track.

DAY before yesterday the MINISTER OF PUBLIC WORKS presented his compliments to the Editor of the Citizen. Yesterday the " quite as well as could be expected."

company, it was the willing spokesman?

guarantee of £300,000, for the settlement of niorial Tenures are only empty names, and the Hudson's Bay Company's claims, is who have never heard of that famous Budget security enough that the Home Government speech which was never delivered, or if they will complete its part of the bargain; the had, would shap their fingers at it as an rest is now in our own hands. A tract of affair that did not concern them. These country, out of which three or four European old questions, once of vital importance to the up a home in. Kingdoms might be carved with ease, with country, are dead, and it is time that their a soil of inexhaustible fertility, and rich in ghosts were laid. If this Confederation is all those natural resources which would go going to last, as we firmly believe it will, the to build up the strength and stability of a new line of action now so generally adopted great nation, awaits the legislative action and should be carried out, and the standing, executive skill of our own Government to based upon the altered circumstances of the people it with life. It is only once, perhaps, times already adopted, must be maintained in the history of any country that a problem by the party which aspires to gain lasting so momentous as the welding together, in power and influence in the Dominion, the compact strength of a constitutional form of Government, of a new Dominior, stretching from the farthermost cape of Newtoundland to the head waters of the Red the head of affairs. with uncertain steps in the muddle of personal politics, that we fail to apprehend the in the palm of our hands? and will history in our times electors and representatives; alike busied themselves only about the politician to the echo, flung a last handful of mud at that one, fought over this commisgave no heed at all to laying, broad and deep, history recounts in pages which glow with how other States, from small beginnings, how their extending territory grew by con-

which to work out the problems of our national history, the extent of which is only 1 tion Ontario had nearly one-tenth more equalled by the marvellous fertility of its resources; and with the development of these resources and the improvement of our great out looking to the other statistics, it is evident | Lendon, August 11 .- Parliament was propublic works guaranteed by the financial credit of an Empire, chary of intertering with our self government, but to which we are still bound by the firm ties of loyalty and Our danger is this-that we may trust too long to the haphazard hand-to-mouth policy which may have done very well for the single province of old Canada, and under which, ut not by reason of it, the country flourished despite the interested broils of its politicians; but new issues have come with the altered times, and a broader and more farseeing policy is plainly demanded by the country. Government has shown itself not unaware of the important work which lies ready to its hands; and this very settlement of the Hudson's Bay Territory question, and the steps which are now being taken to organise the territory, are proof enough to the country that the members of the Cabinet are alive to the issues of the hour; but other work remains to be done which will

tax their best energies. A bold policy in the line of material development, involving the construction of cities, the mapping out of provinces and their constitutional habilitation in the free spirit and so the rate of wages become san important strength throughout Her Majesty's extended quite too wet for growing crops; and that of our British model, is that which our public men are called upon to face and to carry out. And in this great work they need, | mouth ; that is from £2 to £2 16s, a mouth, | ject of bankruptcy and imprisonment for and should receive, the generous confidence evidence on the claim of Messrs. WARD & of the enterprising people whose happiness, much nigher wages. The wages of mechanics classes and the general public. O'LEARY, for alterations, &c., at Rideau material prosperity, and sense of individual vary from a dollar and a haif to three dollars respect—for the latter is enhanced by Now, we have not made these extracts or the der the resources of these establishments The Board will adjourn to-day, and the national greatness, just as it is dwarfed by purpose of inducing men to leave their native more accessible to the community and more members will proceed thence to Sault Ste. national insignificance-will be promoted by country. On the contrary, we say to all efficient in their important purpose. Marie, where some local claims have to be their success. In the pursuit of this new those who are thinking of emigrating, stay at In the removal of the duty on corn, the disposed of. It is expected that the Board policy it is folly to think we can preserve home; because there are many advantages extend industry and commerce, and enlarge the old party camp fires burning. If we do, and comforts to be had in England which to the uttermost those supplies of food which of next month, when the consideration of their light will be deceifful, and lead us far money cannot buy either in the States or our insular position in a peculiar degree en-

Such has been said of the advantages of party government, and the merits of a conevery one is of the signal services which the men who have the best interests of the THE second reading in the House of Com- the far West, to whom our heated contests

EMIGRATION TO CANADA.

From the Warrington Advertiser, We do not undertake to account for the fact, River Settlement, and thence in time to the but it is nevertheless a fact, that at the present begin to work railways in the heart of our time there is a very great emigration going on thought and most carefully weighed from this country; larger, as we learn from adje t the wheels of a train so as to turn it on the papers connected with the ports, than any a curve which has a radius of only 50 feet; Have numbers of these are going from Lancashire. we been so long floundering about According to what we gather from the sources rouders sharp turns necessary—turns which we have alluded to, much greater numbers are leaving Lancashire than is generally supposed, and therefore we think it desirable to draw full importance of the issues which now lie | the attention of the se who are going out from | invited to enjoy a fish diamer at Scoux, and our own immediate neighbourhood, as well as must have observed there the clever but comof those who, remaining behind, are yet bound afterwards record, in its critical pages, that to them by the ties of blood and close affinity, and are consequently deeply concerned in all that may befail them, to the best place to be found, and where success is most likely to petty quarrels of the day-cheered this small await them. Many inviting fields for emigrants present themselves-Australia, New Zealand, South Africa, including Natal; but as the rush from Lancashire is chiefly west sionership, scrambled over that inspector - ward, and men, under the influence of various ship with a pitiable moral blindness which motives, give the preference mostly to North America, we teel we cannot do better at this moment than lay before our readthe foundations of a new empire slowly rising ers some facts with which we have been into power? The birth of no new nation supplied by the Government of Ontario, and all existing trains, which we are the rails out was ever crowned with happier auspices which ought to be carefully studied before a very soon, and which aids prodigiously to than ours, and it can only be a fatal folly England to make his home in America indeed, to have solved the problem of cheap and incapacity which can mar its fair pro- There is an old proverb which says, "Give railways enabling us to have a permanent portions. The philosophical writer of a dog a bad name and you may hang him," which is perfectly true, and in no way more truly illustrated than in the disfavour with the spirit of the times of which he treats, which Canada has been for a long time regarded by intending emigrants, consequent upon his anticipations are well founded; but at and through painful and narrow ways, tically disparaged by those who have a perrose into greatness; how their independent sonal interest in the United States, And antonomy was won by the blood of their best yet, if the facts of the case are tooked into, established a strong presumption in his nothing is more certain that this distayour is citizens, through protracted and exhausting wholly undeserved; and that, if a man must wars, which left the land desolate, and their settle somewhere in North America, the industrial resources crippled for many years; Dominion of Canada is, beyond all contradiction, the country- that an Englishman should choose. What do people emigrate quest, demanding centuries of alternate for? Is it not to better their condition? coercion and concultation before the sullen Where, then, should they go? Is it not where they have the best chance of doing submission of the conquered changed into this? And where, in America, is the best the active and willing acceptance of the chance to be found? In the United States duties belonging to the citizens of one coun- or in Canada. This is the question, since the choice is between them alone. Let us look try; and how jealous and more powerful choice is between them alone. Let us how powerful and détermined fight, and as the bull so positively to the sincere friendship of to facts, since facts will give the best, neighbours used their strength without inter- because the true, answer.
