months without interest. IB TACKABEBRY. Adetioneer, Commission Merchant, Real Estate Agent and General Appraiser.

The above sale is postponed till THURSDAY,

the 30th SEPTEMBER, at the same hour and I B TACKAB ERRY,

DEAUDRY'S NEW SERIES OF SAWS

This important improvement in saw mills. patented in Canada and in the United States, consist especially in a new method of hanging and operating gang saws for manufacturing lumber, without the use of the ordinary gate. The gang of saws are attached at each end to cross heads. supported by a bifurcated pitman, and are the only weight to be supported. The saws and crossheads being very light, the speed of the saws is considerably increased. The new system operates well, and wood can never be more properly sawn, and in larger quantities. With the use of this improvement, mill propriet rs and lumber dealers can realize profits much larger than with

the use of any other operating system. Lumber merchants, saw mill proprietors, founders and business men in general, desirous to obtainthe rights and royalty of the patented improvement, should promptly address to Messy TALBOT & TOUSIGNANT, 29 St. Anne street, city of Quebec; advocates, from whom any information can be had, and where an operating model can be seen.

Royalty can be obtained for Canada and the United States, or for districts only. Quebec, August 18, 1869.

INUREKA LEUTO ORGANS' AND MELODEONS,

Manufactured by the Shoninger Melodeon Company of New Haven, Conn. The most perfect and beautiful in the world. Six medals and ten first premiums taken over all other competitors at the State fairs of New England, Ohio, New Jersey and Iowa. They combine all the modern improvements,
