Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases. without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by cruptions on the skin, or foul ulcerations on some part of the body. Hence the occaits presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the ogcasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Sait Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other cruptions or visible forms of Scrofulous disease.
