MAGES & RUSSELL are constantly receiving additions to their already very large stock. To-day they advertise London Pattern Bon-

GARLAND, MUTCHMOR & Co. have just renovelties of the season. As usual they are shewing the largest stook of new choice goods comprising stylish goods, at moderate prices as well as the richest in Ottawa.

FURNITURE SALE .- Mr. McLean, auctioneer, will commence to sell on Friday the mag ficent household furniture of Mr. Duvernay. Furniture and effects can be seen at the cottage, Wilbrod-st, to-day and to-morrows from ten to five. Catalogues can be had from the auctioneer and at the cottage.

I P.B.S -We are requested to state that a special meeting of the Irish Protestant Benevolent Society will take place this evening at the usual hour in the new rooms, next the Temperance Hall, in Bell's block opposite the Russell House, Elgin-st. A full meeting (without further notice) is desired, as busines of importance will be submitted.

THE WEATHER,-Yesterday we had a foretaste of Winter in earnest. Snow fell for several hours in the afternoon and everywhere the ground was just covered. The barometer had shown indications of falling weather for some days and the atmosphere had prepared us for the visitation. Winter however is not yet and we shall doubtless have some weeks of fine weather before winter comes in reality The note for preparation for the cold season having thus been given, the wise will take he hint and prepare.

KAVANAGE'S GREAT TURTLE.-This is the day, and 12 o'clock is the hour for the great sea turtle, and the epicures to be ready at the "Queen Restaurant". There is quite a flutter of expectancy among the good livers, one of them at least has composed a song on the subject, which has been set to music. Our memory retains two or three of the lines which run thus:

"Know ye the land where the soil is so fertile That the orange grows wild, the bananna and pine Where the guava abounds and the soup of the

Is a dish op which eventthe poorest may dine If you'd see calipagh then in brimming tureens Just take my advice and look in at the Queens."

Caust Mischier .- We are informed that some person or persons, unknown to some who desire to know them, have within the last few days perpretrated a piece of diabolilonging to John Fitsimmons while grazing was shot in the hips a few days ago with small shot, and rendered, it is feared, comparatively useless. It appears that two charges were lodged in the horse, though it may have been done by only one person. It this was done through spite against the owner, the act was as base as it was cruel. If It was intended for punishment to the owner, and if there was nothing elso on which to wreak his vengeance, and the vengeful person was too cowardly to attack the real offender, why did he not shoot the horse in the head instead of punishing the poor creature for life! Such

persons are dangerous to society, and we hope

they will be hunted down.

THE CANADIAN DOMINION DIRECTORY .- Mr. A. Fisher, the agent for Lovell's Dominion Directory, is now in town on business connected with Mr. Lovel's great enterprise. That gentleman called on us yesterday and announced his intention of calling on business men for subscriptions, &c., and we trust that a correct appreciation of the importance to the whole country will induce all interested to lend material aid. Mr. Lovell's experience in preparing and publishing the Canada
Directory of 1857-58, and his well known
enterprise marked him out as the fittest person for this great work, his name is a sure
guarantee that it will be accomplished in the
most satisfactory manner. The Canada

We known
that it has been used in many cases where the
horse has been considered almost worthless, with
the most satisfactory result, the horse having
been restored to perfect soundness or so much
benefitted that the complaint could scarcely be
observed. Many such horses have afterwards
been sold for from \$50 to \$100 more than they
would have previously brought, and were well
worth the difference; let all interested consider Directory, though an excellent work, which answered its purpose admirably for its time, has now by the rapid growth of the country and the present altered times become almost uscless. Such a work, therefore, as is now confemplated is indispensible. It will embrace the whole Dominion, and will become alike indispensable to business men in the United States and Europe. A glance at the prospectus and specimen pages will more clearly set forth the plan of the work, and its claims to public support.

TRIALS UNDER THE NEW LAW .- His Honour Judge Armstrong sat at the County Court House, yesterday, to try two criminal cases-Marie Larabie, for stealing from the person. and Pierre Lavois, for burglariously entering, the store of Mr. Booth, at the Chaudiere, and stealing therefrom. Both prisoners had been committed to take their trial at the next genthe new law, and elected to be tried by Judge Armstrong, the County Judge, without on his trial, and the same evidence as was given at the Police Court of the same evidence as was given at the Police Court was repeated. The case was clear. The Judge found him guilty, and sentenced him to three years penal servitude in the Provincial Penitentiary. As to Marie Larabie's case, it will be remembered that she and Joseph Lecompte were charged, a week ago, with stealing \$38 from the person of one Daniel Clarke, a shanty-man, in Agents, Montreal.

the house of ill-fame kept by Margaret Grovelle, whom Lecompte claimed to be his wife. Both prisoners were committed to take their trial together, but afterwards they severed, and Marie demanded summary trialunder the new law, but Lecompte stood for trial at the sessions, according to the terms of the commitment, But Daniel Clarke, in the belief that he would not be required to give evidence till the sessions, went away to the shanty. This was an attempt, on the part of Marie, to steal a march upon justice, but hitherto the attempt has failed, for the case is adjourned for ten days, and Clarke is to be sent for.

Police Count.-Kavanagh, the man who was noticed in our yesterday's issue as having exhibited a revolver on York street, declaring he would use it under certain circumstances, was brought up, and in the dock he was quiet as a man need be. Mr. George Murphy was sworn, and testified to the fact of the man having acted in a very foolish manner, but he was under the influence of nets Clouds, and more of those very cheap liquor, and witness did not believe he a truth that he drew a revolver and threatened to use it on his wife, and blow her brains out if she did not leave the store of witness. The prisoner was in a very excited state. Kavanagh said that when Mr. Murphy saw him in the condition in which he was he ought to have given him a good thrashing and put him away in the back yard.

The Police Magistrate said there was no excuse for his carrying fire arms, but prisoner said he left home at three o'clock in the morning, and there were wolverines and bears about the country he had to pass through, and there was no danger from ceived new Pattern Jackets, the greatest his carrying a pistol, for he well knew the use of fire arms of all kinds. Fine \$2 and \$1 costs.

Alexander Cameron was charged with being grounds, in a healthy locality. Address the pubfound drunk on the streets. The prisoner was an old man who said he had come into town on business, got into company and for the WANTED IMMEDIATELY. sake of his company got too much whiskey. He was not making a noise. He said he was on his way home. Fined \$2 and \$1 costs.

Thomas Patton was charged with stealing twelve bags, the property of Mr. George R. Blyth. In answer to the charge, the prisoner declared that he was not responsible for the act because he was under the influence of

Coughs and Colds.-Sudden changes o climate are sources of Pulmonary Bronchial and Asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the dis-ease, recourse should at once be had to "Brown's Bronchial Troches," or Lounges. Few are aware of the importance of checking a cough, or "com-mon cold," in its first stage. That which in the mon cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected soon attacks the lungs. > Accident.—There was an explosion in Doctor Ayer's Laboratory yesterday, which caused some excitement in the vicinity. Ayer's Pills are manufactured under an enormous pressure, in cylinders, like cannon which sometimes prove too weak for the compressed forces, and burst with terrific violence. SUNSTROKE.—This accidental infliction, called by the French coup de soleil, is supposed to occur more frequently as the country is cleared, but such indeed is not the case. The truth is both illusions spring from the increased facilities for communication, which, like the great Shoshonkes Remedy for consumption, fowell in the wake of civilisation
