special purpose.

The stock I have now is undoubtedly the larges in Canada, and the question of quality is readily settled by making known the fact that I raise my

regetables from seed procured at any expense providing it is the best; they will therefore bear favorable comparison with any imported. And another and important fact is that being raised and manufactured in Ottawa thereby ses, I am enabled to sell full 40 per centiower than any importer.

These advantages, I think, cannot fail to satisfy those who may favor me with their orders.
