Now all our best timter is gone, so is our best market for our farm produce; the consumers have left with the lumber, and our farming is comparatively neglected for want of a market. The present position of the Grand Trunk, as to its locaour Consulate, Athens, stat :s that the town of tion, deserved our consideration when locating our own line. We should see that it is carried through the central townships as much as possible, where we have the wood which they will require, and othe land to be opened up for settlement, we should, therefore, keep as much as possible from the river, avoid competition may be constructed on the north side of the may come from that side to it, without any interference from us. He did not think the barren country in the hills on the north shore of the Ottawa could give much support to any railway. But a railway we must have and now was the time to show our resolve to support any feasible project for one, and HNOUND. we should not hesitate a moment to name our delegates to the proposed railway convention. Let us follow the example of the west. There, gentlemen were coming forward and taking stock to the extent of from \$5,000 to \$10,000 a-piece in the Grey and Bruce and other railways. For his part, he was willing to subscribe to stock in any railway here for much more than his share of the ER MAJESTY'S THEATRE. proposed grant, for he believed he would benefit from the construction of the road to a far greater amount. Some said railways were for the benefit of the rich, and not for the poor. He confidered it ensured benefit to all, as the poor were sure to reap the benefit

> He hoped they would at once name their Mr. Casselman said he found some gentlemen had misunderstood what he had said and BEAUTIFUL PRESENTS supposed he was against the construction of a Will be given away to the audience during the railway through these counties. This was not so. What he was opposed to was the placing it on the river front. If it was placed on or about the dividing line of the central townships, or even more inland, he would not hesitate to take stock in it personally to the extent of at least \$5,000, and would go to sustain the full amount of the proposed aid from these counties, or even more. He thought they could accomplish all they now aimed at, without embarrassing themselves with the question of confirming the money votes which needed no confirmation. It would serve all purposes to name their delegates to the proposed convention. After some desultory conversation, it was then proposed by J. Cross, Esq, Reeve of L'Orignal, seconded by J. Higginson, Esq. Beeve of Hawkesbury, that at the proposed Central, or any other ra: lway through these counties, it is desirable that the counties of construction of a railway between Montreal and Ottawa, and that Albert Hagar, Esq., the D. m nion Parliament, and our Warden, J. H. Mulliy, Esq. be appointed our delegates for that purpose. - Carried unanimously. It was then directed that the Warden should in at once telegraph to the County Council of

ECNAWAY. - Yesterday afternoon, as Mrs. awless, wife of J. P. Lawless, Esq., of the Bank of British North America, was out driving, with her child and nurse, the horses took fright at the corner of Duke and Colbourne streets, and ran away at a furious rate. In a short time the whole three occupants of the sleigh were thrown out, and the horses plunged down Dundas street to the great danger of life and limb. Fortunately Mrs. Lawless and her companions sustained no severe injury. The horses were recaptured by Policeman Commencing on Denaby, near Clarence street,-London Free
