CONCENTRATED PROOF LIQUEUR. M Guyot has succeeded in depriving tar of its neupportable sourness and bitterness, and in rendering it very soluble. Profiting by this happy discovery, he prepares a concentrated liqueur of tar, which in a small volume contains a large proportion of active principles. Guyot's tar possesses all the advantages of ordinary tar water without any of its drawbacks. A glass of excellent tar water without any disgrosable taste may be instantaneously obtained by pouring a teaspoonful into a glass of water. Any one can thus prepare his glass of tar water. at the moment he requires it, thus economizing time, facilitating carriage, and obviating the disagreeable necessity of handling tar. Guyot's tar replaces advantageously several more or less inactive ptisans in the treatment of

colds, bronchitis, coughs and catarrhs.

duyot's tar is employed with the greatest success in the following diseases: As a Dzauger-A teaspoonful in a glass of water, or two table-spoonfuls in a bottle : RONCHITIS CATARRH OF THE BLADDER COLDS
