Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds; Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of edicine, has anything won so widely and so deeply pon the confidence of mankind, as this excellen medy for pulmonary complaints. Through a lon eries of years, and among most of the races o men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a re-Forms of tender and any further information liable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a provision against sudden attacks of Crossp, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
Although settled Compumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it.
