Let us for a moment glance at the military and naval resources of the two great owers now placed in hostility to each other. The French cople are eager for a war with their oll en mies. The brutalifronts off-red by Bismarck rankle in their minds, and the hope of revenge for past injuries, and the prospect of future glory for France, weld all classes of Frenchmen together in the glowing fire of patriotic fervour. Those who imagine that the ene-Sir George E. Cartier returned to the mies of Napoleon will, in the event of war, fin I an opportunity of overthrowing his rule and dynasty, are much mistaken. But in case of defeat and national diagrace Napoleon would have reason to dread the worst results.

The population of France, according to the census of 1866, was (exclusive of 125,-000 soldiers, stationed outside of the empire) 38,007,065, of which 11,595,348. lived towns, and 26,471,716 in the rural distrivis. As regarded nationality 635,495. were resident foreigners, the remainder native Frenchmen. The difference of language among the natives of France has-Leen the subject of an official census. It is estimated that about 1,200,000 of the population (Alsace and Lerraine) speak German as their native tongue, 200,000 Flemish, 1,800,000 Walloon, 1,100,000 Breton. In their religious faiths the people tracted.
