The London Globe declares that if the rights of Belgium are interfered with British troops will at once occupy that country.

The Prussian vessels which are reported to have been engaged with the French squadron yesterday are four iron-clad frigates which have lately been visiting the English naval ports.

The telegraph announces that Dr. William Russell has been engaged by the N. Y. Sun as its special correspondent at the seat of war.

An extra of the Canada Gazette contains a copy of a letter from the Right Honourable the Colonial Secretary to His Excellency Sir John Young, announcing that on the 22nd ultimo Her Majesty was graciously pleased to accept from the Hudson's Bay Company the surrender of Rupert's Land, and that by Order in Council Her Majesty had authorized the union with the Dominion of Canada from the 16th inst., in accordance with the terms of the British North America Act, and the address presented to the Queen by the two Houses of the Canadian Parliament.

At Whiting, on the 2nd instant, the wife of Charles Marr, Esq., of a daughter.

We have great pleasure in announcing the birth of what may be called "the pioneer baby of Manitoba."

Our readers are more or less acquainted with Mr. Charles Marr, and will remember that about a year ago he was a native of Ontario, and that the newly married couple proceeded shortly after to Fort Garry.

During the troubles of last winter both Mr. and Mrs. Marr, suffered many hardships and have necessarily been separated for the past few months.

Some of the most interesting letters which we have seen from the Red River expedition have been furnished by the Rev. Stewart Patterson, the Protestant chaplain to the force.

It is a very well constructed road, there are no sharp curves, and the road is well paved with a material of which the late rains have, it is true, made some portions of it very bad indeed.

SUMMARY.

Dominion. A terrible calamity occurred on the Grand River, at Fort Marlborough, on Sunday last.

It appears that about six o'clock on Sunday morning the large propeller Guiding Star was leaving Fort Marlborough on the Grand River, after having taken a load of coal, and when just passing a point known as the "Point of the Rock," a terrible explosion occurred.

Four men were instantly killed and nine or ten others more or less seriously injured. The vessel itself was split in two and blown to pieces.

The explosion was caused by a quantity of gunpowder which was stored on board the vessel, and which had become so moist that it had become very inflammable.
