Almost all other watches are sold under false pretences; not one in a hundred bears the name of the real maker; the public have absolutely no imposed upon On the contrary, every bujer of a Waltham Watch gots a guarantee of the company, and no matter from whom he buys it, has positive security that he is getting a TIME which will be found VERY COMPLETE and KEEPER. It must be admitted that the apparent interes of watchmakers lies to selling other watches, on

which they can make larger profits: but men of enterprise in the trads prefer an article of large and ready sale, and which leaves no bad stock. It is "small profits and quick returns."
These watches can be had in soveral grades (all goaranteed), the silver cases are made from coin silver, and from 2 to 6 ounces in weight. The gold cases are made in 18 caratgold, and from 1 3.4 to 4 ounces in weight; the size for ladies are richly engraved or enamelled. For the quality, both in gold and silver, are the CHEAPEST WATCHES IN THE WORLD There watches can be ordered of any reliable
