MACHER'S recent improvements in his Voltaic " Batteries and Galvanio Appliances for " Medical Purposes are of great importance to " Scientific Medicine, and that he is entitled " to the consideration and support of every " one disposed to further the advancement of " real and useful progress. " Dated the 9th day of March, 1866. SIR CHARLES LOCOCK, Bart., M. D.,

SIR HENRY HOLLAND, Bart., M. D., F. R. S. SIR WM. FERGUSSON, Bart., F. B. S. * EDWD. H. SIEVEKING, M. D., M.R.C.S. Hardware, Paints, Oil, Glass, Putty, Coal Oil, SIR J. BANALD MARTIN, F. R. C. 8 . Ac., &c. PULVERMAURER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris, Royal College of Physicians, London, and the Imperial Faculty of Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet gratis). These facts appeal to the good sense of every sufferer to avail himself of this scientific and

curative progress, to which the inventor has devoted a life-time of study and labour, as an ardent deciple of that great benefictor of mankind, the late illustrious electrician MICHARL FARADY. PULVERMACHER'S MEDICO-GALVAN-IC CHAINS are exceedingly effective without the aid of medicine, restriction of diet. or the least derangement of the patient's habits and daily occupations, in the following maladies : Female Complaints

Constipation Cramp Sciatica Sluggish Circulation Lumbago Urinary Disorders Neuralgia Head and Toothache Paralysis Epilepey Liver Complaints Nervous Debility Functional Disorders

It is desirable that the pupils assemtheir loss; parents and guardians are, therefore, respectfully requested to send in the purils on the description. The house is four stories high

14541f&w37tf

most unusual height was discovered on the vey of British Guiana. Being short of provisions, at a great distance from his boats, Mr. Brown was not able to devote more than a couple of hours to the examination of the falls, which, by hasty barometrical observations, he found to be nearly nine hundred feet in height, the breadth of the made of the falls without delay, Mr. Brown columns of your widely-circulated journal. Sir George Young gives the following.

"Although I am anxious that Mr. Brown,

as a discoverer of the Great Kaieteur Fall, and the director to the successful expedi- him. After he effected his fatal purpose, drum ordered all the inhabitant with maps tion which we were permitted to accompany, should have the telling of his own story, yet I can understand that his friends in Georgetown will be anxious to hear at Dubli Porter, put up to order. Dawe's once of his success. The Fall has a clear had been hanging on the wall, along with if they did not once attend to the sumthe Potaro glides smoothly in a slight de- old man had used, and which, with the supper, with different drinks, and cigare April, the rocky channel was completely covered, and the stream must have had a width of at least 100 yards. At present it is diminishing in volume, and, as the Indians assured 'us, will continue to do so till October, when only central and deeper portion about one-third of the whole, will remain. The best time, therefore, for a visit is in the Spring, at the end of what appears to be the ramy season of this elevated "As we saw the Fall I cannot imagine

anything more beautiful. The central portion, which is never dry, forms a small horse-shoe or re-entering angle, and the water in this part preseves its consistency for a short distance from the ledge. But everywhere else, and here also, at a few feet from the top, all semblance of water Direct from London, put up to order from dissapears; it breaks up, or blossoms, into fine foam or spray, which descends in the well known rocket like forms of the Staubbach, and similar waterfalls, but multiplied a thousand times, into a small the spray. The cavern behind the Fall is the home of thousands of swallows, which issue from it in the morning, and be seen returning in their multitudes at night. The Fall itself is one vast descending col umn of a fine dry looking snow white substance, bearing a resemblance, in colour and consistency, to the snow of an avalanche, but surpassing all avalanches I have ever seen in size, and in the beauty of the forms taken by the material of the Fall. Rainbows of great splendour were observed, one from the front of the Fall in the morning, one from the summit in the afternoon; but this last reverted, forming a coloured hoop or ring, into which the whole mass seemed to precipitate itself and disapear at the gorge and outlet of the pool.

and dart underneath, black and foaming, "We spent 11 days in ascending the Essequebo, which was heavy in flood, and detained us double the time anticipated. Five days brought us from Toumstumari, the lowest fall on the Patero, to the Patemona village. In this stage there are five sight and ability." Mr. Brown and Mr. King remained at the

the Fall, Mr. Brown found that they gave the total height of the perpendicular Fall and cataract ot 817 feet. The depth of the July, Mr. Brown and Mr. King started on their return, but at the mouth of the Curiebrong River Mr. Brown remained the action to recruit, being at that mothree days, to make arrangements to ascend ment commanded by a youth of nineteen, three days, to make arrangements to ascend that stream on his next geological excursion. They finally left the Tumatumari sion. They finally left the Tumatumari Fall (five miles up the Potaro River) on the Fall (five miles up the Potaro River) on the morning of the 29th ult., and, after an una day's sickness during the excursion. Melancholy Suicide.
