The Liberated Fenians

DUITIONAL STOCK Some of the United States journals speak out pretty freely on this subject. The Rochester Express says

The pardoned Fenians are very independent fellows. After their release from prison, instead of going quietly to their homes, as would have been becoming, they were surrounded by their friends and made speeches, in which they thanked no party or administration for the release but evidently considered it a matter of right. We are afraid that our Government has been mistaken in its mild treatment of these worthies. After pardon, of curse nothing can be done against them, but the pardon was granted solely on the assumption that they were sorry for their acts, and would behave better in future. If they do not.

all we can say is, that if captured again we hope they will be taken by the Canadian authorities, in which case they will be apt to get what they richly deserve.
