and Consumption.

Probably never becore in the whole history of eine, has any thing won so widely and so deeply upon the confidence of mankind, as this excellent medy for pulmona.y complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estima-tion, as it has become better known. Its uniform character and power to cure the various affections f the lungs and throat, have made it known as a retable protector against them. While adapted to ailder forms of disease and to young children, it is a the same time the most effectual remedy that can at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the discase seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear. toral they subside and disappear.

Singers and Public Speakers find great protection from it.

tured by it.

Rroughitis is generally cured by taking the Cherry Pectoral in small and frequent doses.
