An Old Lady's Evening Wish. My wishes need not very high, Nor do they widely roam, These moderate wishes are contented To comfort home at home. Give me what I enjoy so well— Whole domestic ease; And take my word, I feel myself As happy as a Queen.

JOHN HILL, THE TEA POT, RIDEAU STREET.

To the Electors of the Wellington Ward.

GENTLEMEN,— You will be called upon in a few days to elect your representatives to serve on the City Council Board for the year 1871, and as a candidate for your suffrages I deem it my duty to lay before you my views with regard to some of the principle questions which should engage the attention of your representatives during the next year.

Wellington Ward being the largest in the city, both in area and assessed property, the latter to the extent of about five hundred thousand dollars more than any other Ward, and about one hundred thousand dollars more than Ottawa and By Wards together, I contend that we have not a fair representation in the City Council.

It is plain to every one that the city is rapidly growing to the west. Take for instance south of the Richmond Road; the western portion of Albert Street and Ashburnham Hill, which localities are practically unrepresented. I strongly maintain that we are entitled to six representatives instead of three, and advocate a division of the Ward, and the extension of the city limits to take in Rochester-ville. This would equalize the representation, and satisfy the large and increasing population of the western portion of the city. It must be patent to all that nine representatives for Lower Town and only six for both Centre and Upper Town, although probably quite just when the basis of the present representation was arranged years ago, is now very unfair to the latter, where population and property have increased far more than in Lower Town.

The bridge over the canal, connecting Wellington and Rideau Streets, should no longer be delayed, on account of the rapidly increasing trade of the city as well as public safety, and I have no doubt that if the matter was properly represented to the Dominion Government an amicable settlement could be arrived at, and the construction of the bridge commenced during the coming year.

The opening up of Sparks Street through to the Richmond Road seems to me a work of necessity, and although it may look an expensive undertaking the rock taken out of the cutting for the road could be utilized for building purposes, and the amount so realized would very much reduce the cost of the work.

Queen, Albert and Slater Streets, and others in the rear of those should be opened up westward, and thus attract the attention of parties desirous of acquiring property, who, each adding their taxable improvements, would largely and rapidly increase the revenue of the Ward.

As the promoters of an obnoxious Water Works Bill, not daring to face the electors with it in their hands, have acknowledged its unpopularity by consigning it to its last resting place, it is unnecessary for me to treat of its details, therefore I will simply say that I am in favour of Water Works when a proper system for their construction and maintenance can be matured, and a system that will not involve ourselves and future generations in financial difficulties as regards the Corporation and enormous taxation individually.

Water Works and Sewerage should be commenced and go hand in hand together, and how it is promoters of that unpopular Water Works Bill could expect to succeed in giving the citizens a supply of pure and wholesome water without sewerage is beyond my comprehension, but I have had but one opinion of it from the first day, and the ignominious manner in which it has been abandoned carries but one conviction, and that is, that it was conceived in iniquity, born in sin, and nursed in the ap of jobbery and corruption to the last moment of its existence.

Not having had the honour of occupying a seat at the Council Board, I have no municipal sins to answer for. I come before you an independent candidate, not fastened to any man, or set of men, and should I be elected, shall enter the Corporation unpledged and unprejudiced.

I intend making a personal canvass of the Ward, and hope to meet you face to face, and answer any questions you may desire to put to me.

In the meantime, I beg to remain, Gentlemen, Your obedient servant, AMOS ROWE.

Ottawa, December 10th, 1870.

Court of General Sessions and County Court.

This court was opened at half past 12 yesterday in the Music Hall, His Honor Judge Armstrong presiding. Mr. Morgan, Esq., Warden of the County, occupying a seat on his right. The Grand Jury was empaneled and took their places. B. Fisher was appointed foreman of the jury. His Honor in opening the proceedings stated that there were only four prisoners confined in the jail who would be brought up for trial. He congratulated the jury on the absence of crime in the county and city. Two of the prisoners were charged with attempting to break jail but he could not see on what grounds this charge could be preferred, as there was no provision in the law making an attempt to break jail a indictable offence. The other two prisoners were charged with conspiracy on a count of an omission in the application.

Another application of a similar nature was also referred to the court. A mortgage case, between Mulligan and McNeely, was next brought up. Mr. O'Garra took exception to the jurisdiction of the court. It was, however, decided that the case came within the jurisdiction of the court, but for some reason it was not stand until to-day.

The case of James Green for larceny, was laid before the Grand Jury. The Petri Jury was then empaneled. Henry Bishop, Esq., James Goodwin, for the recovery of amounts of money for labor, and a quantity of stone supplied by plaintiff to defendant. After hearing the evidence of the plaintiff, Mr. Bishop, on the part of the defence, moved for a non-suit, to which, however, His Honor objected on the grounds that there was sufficient evidence to send the case before a jury.

The jury retired, and after about half an hour returned and delivered a verdict for plaintiff of \$143.85. Mr. M. grove for defence, moved for a verdict of acquittal. This case had been dismissed by the County Magistrate on the ground of the non-attendance of the defendant. The case was then brought up for trial, and the jury returned a verdict for the plaintiff of \$143.85. The County Magistrate announced the finding of a true bill against James Green for larceny. The Court then adjourned until half past nine this morning.

Lecture by Dr. Mary E. Walker. As previously announced to take place, Dr. Mary E. Walker of Women's Rights fame delivered a very lengthy, very able and very interesting lecture in Gowan's Hall last evening to a large audience.

Dr. Walker does not possess, as might be expected and is generally believed by persons who have not had the pleasure of listening to her eloquence a masculine appearance, on the contrary her appearance and general bearing is thoroughly feminine, and though she has travelled and lectured the world over she has not, properly speaking, lost the naturally mild and modest manner of her sex. Her features and form are well shaped, and she presents a rather comely appearance on the platform. She is dressed in a modest and simple attire.

The chairman introduced the lecturer as a woman who was using the talents which God had given her in endeavouring to elevate the condition of her sex. The lecturer after some introductory remarks said the men who did not love their fellow countrymen, but men should not love their country to the exclusion of all humanity. When God included man in oppression while on earth with their little bit of power? It did not follow that because men were physically stronger than women that they should oppress them.

Men say that if the franchise were extended to women they would go travelling over the country neglecting everything domestic, and find cradles and babies out of the window. This is what men believe, but it was not absent to suppose that women would forget all the qualities which nature had endowed them with. And men again alleged that all that women were after was man's money. But every man and woman should be content with their own money, and not go after the money of others.

Men say that if the franchise were extended to women they would go travelling over the country neglecting everything domestic, and find cradles and babies out of the window. This is what men believe, but it was not absent to suppose that women would forget all the qualities which nature had endowed them with. And men again alleged that all that women were after was man's money. But every man and woman should be content with their own money, and not go after the money of others.

The Ecumenical Council, lately called at Rome is an instance of the solicitude of the Catholic Church for the welfare and prosperity of the world. Large assemblies of this nature containing representatives from all parts of the world, should be of some benefit to our race. We hope that the result in favor of the Great Schism Remedy, for diseases of the lungs, blood, stomach, liver, &c. For all drugs.
