L'LECTRICITY IS LIFE PULVERMACHER'S PATENT

GALVANIC CHAIN-BANDS BELTS, AND POCKET BATTERIES

These highly improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigour, speedily soothing sgonizing pains, re-animating torpid limbs. reviving the singuish functions of life, and imparting renewed energy and vitality to constitutions enfectled by whatever carrie. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVELMACHER'S MEDICO-GALVAN. IC SYSTEM is so extensive and varied, that it forcibly points to this invention as the

embryo of a universal remedy. N. B .- The following testimony from the elite of the English medical faculty has been Batt-ries and Galvanic Appliances for " Medical Purposes are of great importance to Scientific Medicine, and that he is entitled

" to the consideration and support of every " one disposed to further the advancement of " Dated the 9th day of March, 1866, " SIR CHARLES LOCOCK, Bart., M. D. SIR HENRY HOLLAND, Bart., M. D. SIR WM. FERGUSSON, Bart., F. B. S.

" EDWD. H. SIKVEKING, M. D. MRCS. " SIR J. RANALD MARTIN, F. R. C. 8 * PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris, Royal College of Physicians, London, and the Imperial Faculty of Vienna, and its curative virtues are confirmed by thousands of private to stimonials of cures effected. (See pamphlet gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a life-time of study and labour, as an ardent deciple of that great benefactor of

mankind, the late illustrious electrician PULVERMACHER'S MEDICO-GALVAN-IC CHAINS are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations, in the following maladies:
