GLADSTONE AT A DISCOUNT. Two years ago-even a twelvemonth since-the name of Glidstone was as a rallying cry among the Liberals of + ngland. He who bore it had defeated the Conservative government at the general election of 1868, and a few months later had disendowed and disestablished that mons ter evil, the Protestant Church of Ireland. Now. matters are greatly changed. The Weekly Despatch, established early in the century, and long the most liberal of all the London journals, enjoying for over sixty years an immense circulation, and always conducted with marked ability which used to dwell, with the exultation of triumph, upon the rapidly developed liberality of Gladstone now bitterly reproaches and condemns him as derelict of patriotism.

tion for England to assume was that laid down by Earl Granville in his first despatch, and his partial abandonment of that rosition seems to give some color to the perhaps unfounded, but certainly very prevalent, rumour that the Foreign Secre tary first answered Prince Gortschakoff on his own responsibility, and was then forced to abandon nis safe an i honorable standpoint at the suggest on of the peace at anyprice party in the cabinet. It is undoubtedly too true, that with all his vast and varied attainments, with all his great and indeed unrivalled qualifications for a Liberal leader, Mr. Gladstone has alreays exhibited a strange want of sympa hy with the history and honer of England. This Noon on SATURDAY, the 14th of January, defect it is which makes his foreign policy | 1871, from parties desiring to acquire the so ineffective. But we trust that his keen | privilege of establishing an I maintaining & perceptions and his unbounded bree of place | FERRY, navigat d by Suam Power, a ross and p wer will suffice to teach him that the only way to retain his position is to guard ealo sly that which all Englishmen value lage of New Edinburgh, in the Province of far more than Irish Church Bills, Land | ntario, and the Village of Wat-rice or Gati Bills, or the Ballot-the good name of near Point, in the Province of Quebec . Britsin." This is severely sarcastic, and doubtiess expresses the popular opinion of England on Mr. Gladstone. It concludes with a faint hope "that the Premier will realize in time the undoubted truth that any paltering with our pledged word would sound the knell for his own fall, even though we had to pay the heavy price of being for a time ruled by a Conservative minority." The Conservatives, in fact, have always managed foreign affairs much better than the Whigs.

At this time I had begun to feel the weakness in my hands; in fact I was getting almost helpless I have taken two bottless of the Shoshoness Remedy and two boxes of the pills and Shoshoness Remedy and two boxes of the pills and I am entirely restored to health.
