SATURDAY, DECEMBER 30, 1871.

We are requested to state that the Governor General will receive New Year dividual member can perform the func Visitors at the Privy Council Chamber, Government Buildings, on Monday, January the 1st, from 12 to 1 o'clock. of us are the worse for seriously examin ing wherein our duty truly lies.

We are glad to learn that Mr. McQuaig was yesterday elected in Prince Edward county for the Local Legislature, beating the Clear Grit candidate by a handsome.

The Indian Government are adopting suringent mesures for the purpose preventing the somewhat indecent and decidedly ungraceful performances of the Nautch girls. This may be all well enough, but it seems to us that while they are putting a stop to immoral and disgraceful exhibitions among the natives, something ought to be done in the same direction for the benefit of the Anglo Saxon race not only in India, but all over the world There is grace and beauty and the poetry of motion in such dances as Taglioni, Cerito and Juvernay, introduced to the English play-going worki, but to see, as we now frequently do, women clad in garments the most inappropriate and unper character, appear on the stage and dan "break downs" is, we believe, about as disgusting an exhibition as any in which an Indian Prince has ever delighted.

There are lew men for whom personally we have more respect than for the Hon. John Young of Montreel, He has done much to promote the welfare of that city is various ways and is without doubt well Versed in commercial affairs. Lut we can not help thinking it a misfortune that he should have been chosen President of the Dominion Board of Trade. Mr. Young holds peculiar views with regard to Cana dian Independence and a commercial zoll verein with the United States. These views are not entertained by the business men of Canada generally, and the consequence is that when Mr. Young as President of the Board of Trade in his intercourse with Americans advances his peculiar theories, he gives them a fulse impression as to the out trade prospects with our neighbours new Ontario Administration, until we revery materially. Ample proof of this was it is an injury to the business community | we believe speaks with authority, so far as of Canada, that a gentleman holding these views, no matter how worthy and respectable he may be, should be placed at the head of the Dominion Board of Trade.

A QUESTION OF THE DAY.

A question is at this moment before the country, the resolution of which embraces | we are justified in terming it, are certainly | river, from the Buck to Westminster in | any other provisions of the treaty. consequences far more important than or- of an extraordinary and exceptional fifteen minutes . dinary observers as a rule recognise, and which all men of moderation, and with a sense of responsibility, approach with much thought and diffidence. Chi boso the result? Thus a local legislature voting confidence or want of confidence, in either measures or men, is met immediately by the criticism that the vota represents nothing: that those called upon to record their views are to be found in a vother place and that there cannot be the formand and propose or to support the late Government, as he at perfect liberty, as he contends, to give his support to the party line of the St. Paul and Pacific road, which line of the St. Paul and Pacific road, which line of the St. Paul and Pacific road, which she charged his party one, led by Mr. Blake.
