DEAR bins, -It gives me much pleasure to be able to inform you that the Hot Air Furnace which you lately put up in the Church of St. John the Baptiste, in this village, has diven great satisfaction to myself and the nembers of my congregation. We had it going lately on one very windy day, but we nad no trouble with it whatever, in the way of smoke, or any other inconveniences, which often take place with heating apparatus, when the wind is high. We find that the church is heated in a very

much wood to keep it going as it did the The heat diffuses itself rapidly over the whole building, and no one part is colder or botter than an other, but there is a nice glow of heat all over. Remembering the trouble hat we used to have with leaking pipes, moking chimneys, &c., we look upon the furnace as a decided luxury. I certainly think tifying as to the universal satisfaction i uo church ought to be without one, when it

can be procured so easily and so cheaply as gives. ours was from you. I must also express the great pleasure had in noticing the kindness and attention which Mr. Meadows (and also his workmen) showed in everything connected with the
